WE SHAPE YOUR CABLE

A legend left us, but we continue his life's work. The legacy of Markus Katzengruber "Katzi" lives on and we continue to grow it. From day one, since PMC was founded, the team has shared a common history with Shape Obstacles. Together with Aljosa (the owner and brain behind Positive Boards) we construct and build high-quality wakeboard features in any kind of form. Wakeboarding is not just a sport for us—it is our passion. We take our customers seriously and their feedback enables us to improve the products.

What sets us apart

Our goal is to create innovative and high-quality wakeboard features in any kind of shape! Our experience in the industry in combination with the passion for wakeboarding gives us the opportunity to plan and build wakeboard obstacles for all sorts of cableparks.

High-Quality

We use high-quality welding processes according to general guidelines. Every part has 100% quality control according to our high quality standards.

Smoothness

We work without screws and with high-quality HDPE. This makes an ideal surface, while the opening design on the bottom of a feature provides natural water cooling.

Geometries

Our team has many years of experiences, while continuous feedback from our Pro Riders allows us to develop and adapt our products on a continuing basis.

Experience

With over 13 years of experience in the industry, we strive to provide high quality features for cableparks worldwide. Our products are "made by riders for riders".

Guarantee

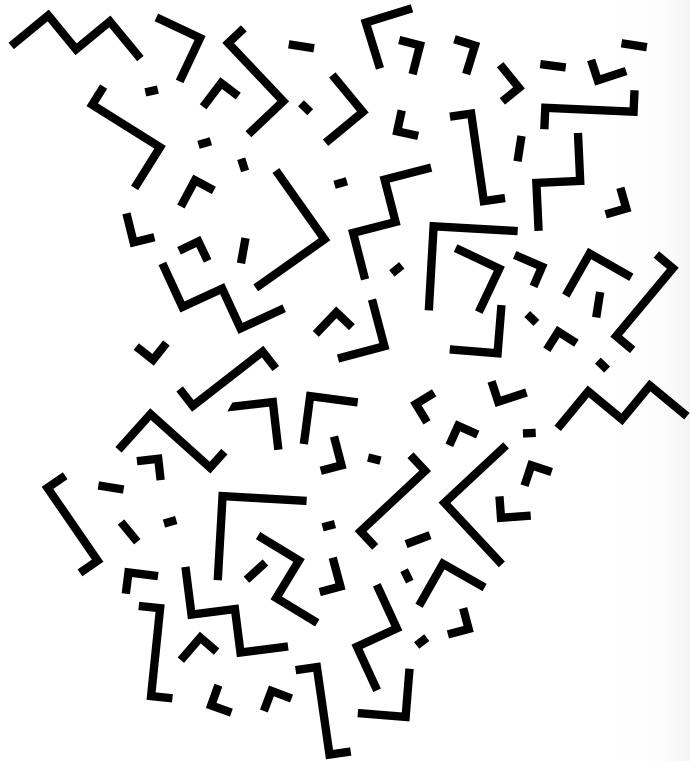

All of our products come with a 5-year worldwide guarantee. Should any complaints arise, we will do everything to find a prompt solution.

Shipping

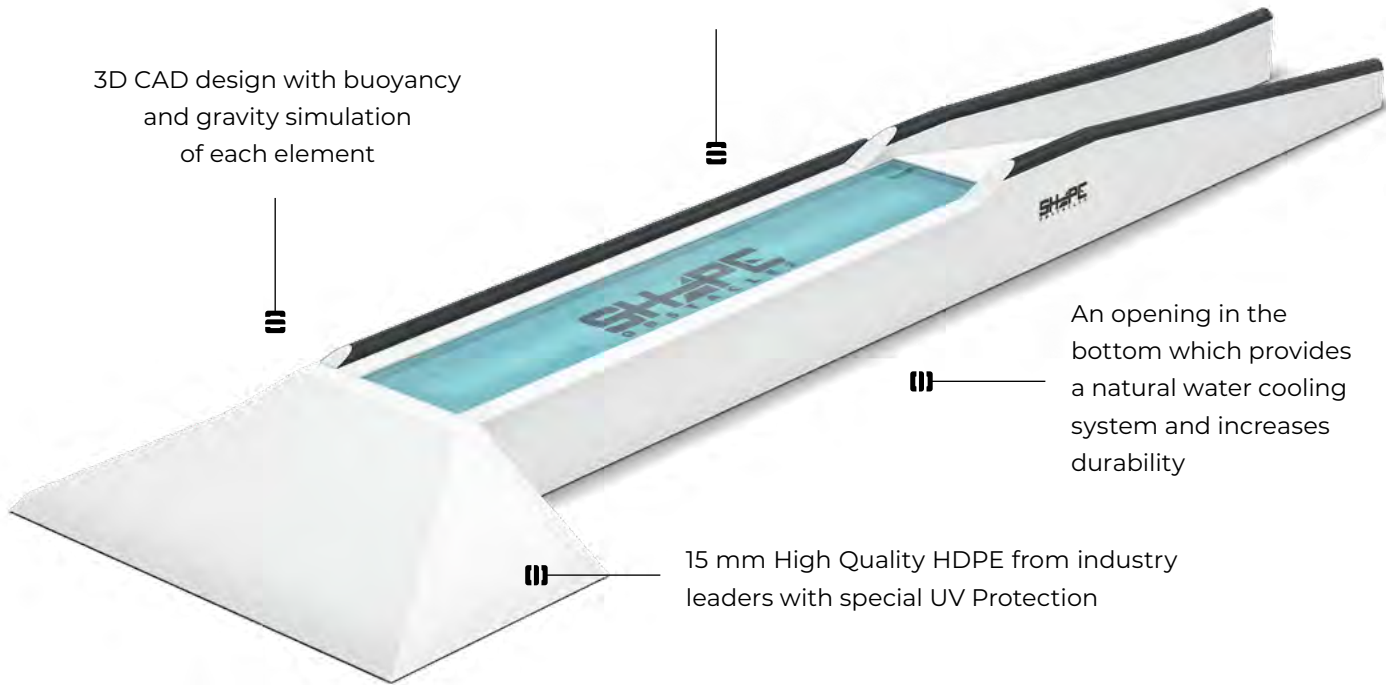

Since 2011, we have delivered over 600 handmade features worldwide. Our deliveries are made on time and provide accurate tracking. No location is too far for us.

Highest quality characterises our products

Easy to hack due to the design of the modules and the mounting openings on the side

3D CAD design with buoyancy and gravity simulation of each element

An opening in the bottom which provides a natural water cooling system and increases durability

15 mm High Quality HDPE from industry leaders with special UV Protection

Sustainability

Our path forward is clear: to continue having fun in water, we must focus on positively impacting our people, planet and sport. Hence, we minimise transport routes and waste while recycling our HDPE leftovers.

We provide a wide range of services

Our service starts with an in-depth consultation, since features are vital elements of every cablepark. We show you the options for designing your obstacle setup in a modular and variable manner and help you design a target group-specific obstacle layout.

WHAT WE BELIEVE IN

We are focused on producing durable products that also offer a lot of variety. or a creative sport like wakeboarding, it is vital that parks do not stay static, but rather remain in a state of constant flux. That is the path to increased acceptance, new participants and enhanced growth.

WHAT WE DO

Our goal is to create the best features for our customers. We have many years of experiences in the sport and translate the expertise and know-how into the shape of our features. Through continuous feedback from our pro rider team, we further develop and adapt our products.

WHAT WE´VE DONE

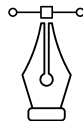

We have sold over 600 obstacles throughout the world since 2011. Many well-known cable owners count on our skills and are satisfied customers. We put our customers' priorities first and infuse the spirit of innovation, progress and sustainability into everything we do.

PLANNING

Whether a full-size cable or a 2.0 system - we will find the right product for you. Each obstacle is created as a 3D model and is also thoroughly checked by our team and team riders. We also help you with anchor planning.

ADVERTISING

All elements can be covered with advertisements or made with recesses using the CNC milling machine, in which foiled aluminium plates can be inserted. We can create the right graphic for you in-house.

CONTENT PRODUCTION

As an additional service we can support you with the production of professional content comprising our Pro Riders, photographers and filmmakers. We take care of the organisation and create sustainable added value for your cablepark.

MARKETING

Almost everyone these days has a personal social media profile. That is why we promote each project on our channels and platforms, such as the Handle Magazine, Cable Mekka and Insidewake, in a manner suited to the target audience.

Shaping the future of wakeboarding

A conversation on the Spanish Mafia team series and the power of collaboration.

Hi John, why did you decide on the Spanish Mafia team series?

From the moment we opened Lunar, it was always a little dream to have a unique feature! We've partnered with Shape Obstacles, because of a shared vision for wakeboarding and many of the obstacles impacted the riding at our park and how the beginners are discovering the discipline; giving the riders a chance to shape their homespot and bring their riding style into the mix is valuable for the community and brings that extra Spanish spice to the already impressive set! If you have not heard how good these stairs sound, head over to JuanLu's latest clips.

What kind of feedback have you received from riders about the Spanish Mafia feature you have in your cablepark?

Spanish Mafia team series has been moved and flipped around a few times since March. We had procamps, beginner camps, sitwake camps and video parts filmed - I am yet to receive any negative feedback. It's versatile with

numerous lines and challenges, it's hackable, adjustable with add-ons, and offers beginners and sitwake an easy and safe way to feel the joy of taking the stairs and hearing that magical sound we all grew so fond of.

Tell us about the installation. How did that go down?

Having a dedicated SHAPE team member arrive with the obstacle to assist with putting together the rail helped a lot. We have an experienced team, so the process went smoothly, and the obstacle was in the set and tested by our team within hours from arrival.

How do you balance the need for challenging obstacles for advanced riders with the need for beginner-friendly options?

We look at our set as a whole; you need variety, options to create a welcoming, easy and beginner friendly set, which can be fun and enjoyed by the majority of your audience. Then focus on the audience priority for particular periods of the year, and adjust your

“ From the moment we opened Lunar, it was always a little dream to have a unique feature. ”

Since March 2024, the Spanish Mafia team series has been another standout feature at Lunar Cablepark.

— “ —

There is a good mix between OG veterans and new blood, the management is coordinating seamlessly with great team energy, so at times, due to the vibe, it's pure fun and the results are great.

— ” —

set to keep things fun and engaging. I look for obstacles which can be used and viable in both beginner friendly settings, as well as easily hacked to serve higher level problem solving for the top performers.

You've been a Shape Obstacles customer since day one. What made you choose to collaborate with Shape Obstacles, instead of opting for another supplier.

Long conversation with Markus, which from a quick sales chat, turned into a long and passionate conversation about how both sides would like to contribute and support this amazing sport. It just clicked and we got to work; very happy with my decision and looking forward to further years with the SHAPE family!

Some time ago the Shape Obstacles team spent a week at your cable to create new content. How is it working with the team?

This was absolutely amazing; wholesome and productive, and the results will speak for themselves; but it was great to see the new team work so well together! The riders line-up is very strong, but there is a good mix between OG veterans and new blood, the management is coordinating seamlessly with great team energy, so at times, due to the vibe, it's pure fun and the results are great.

How did the process work from a project management perspective?

I believe this topic is extremely important and this could be a separate interview entirely; but to put it simply this is what Shape Obstacles used to do well, and now Shape Obstacles does it even better; the process of collaboration with a park is handled in a project management fashion - determining project scope, establishing understanding and mutual expectations, detailed project plan and execution with regular outcomes review. No surprises, the project is delivered up to standards, on time, and according to the agreed budget.

What is it that you like about Shape Obstacles?

There is a very strong team behind SHAPE Obstacles, with insight, experience, and passion that keeps feeding their daily drive as an organisation. Shape Obstacles stands for highest quality, using 15mm high-quality HDPE with a unique design that allows natural watercooling and hackability. The connection between the features is milled out of the full material. Add on top an accomplished and hungry for more line-up of riders, and how could you not like this team? It feels like they are just getting started!

Thank you, John, for the interview!

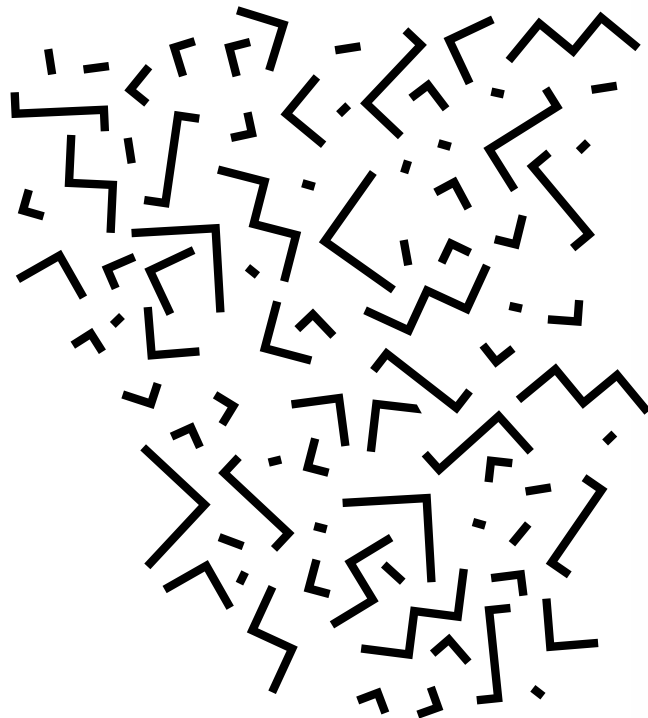

© Sam Strauss
Lunar Cable Park

The entire SHAPE team spent five incredible days at Lunar Cablepark. The welcoming atmosphere and warm hospitality made for an unforgettable experience in this amazing place.

Shape Obstacles

TEAM SERIES

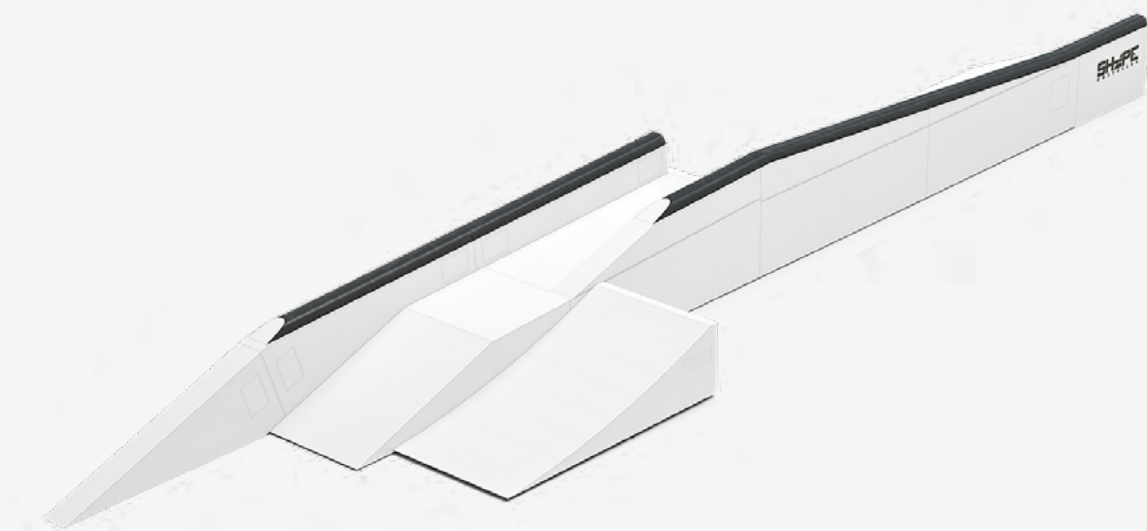

Team Series

Dominik Hernler

With my first signature obstacle I wanted to bring easy rail to rail transfer to wakeparks around the world. The kicker on the side and the bank next to the downrail offer a lot of different ways to hit it. Everyone can have fun on this thing!

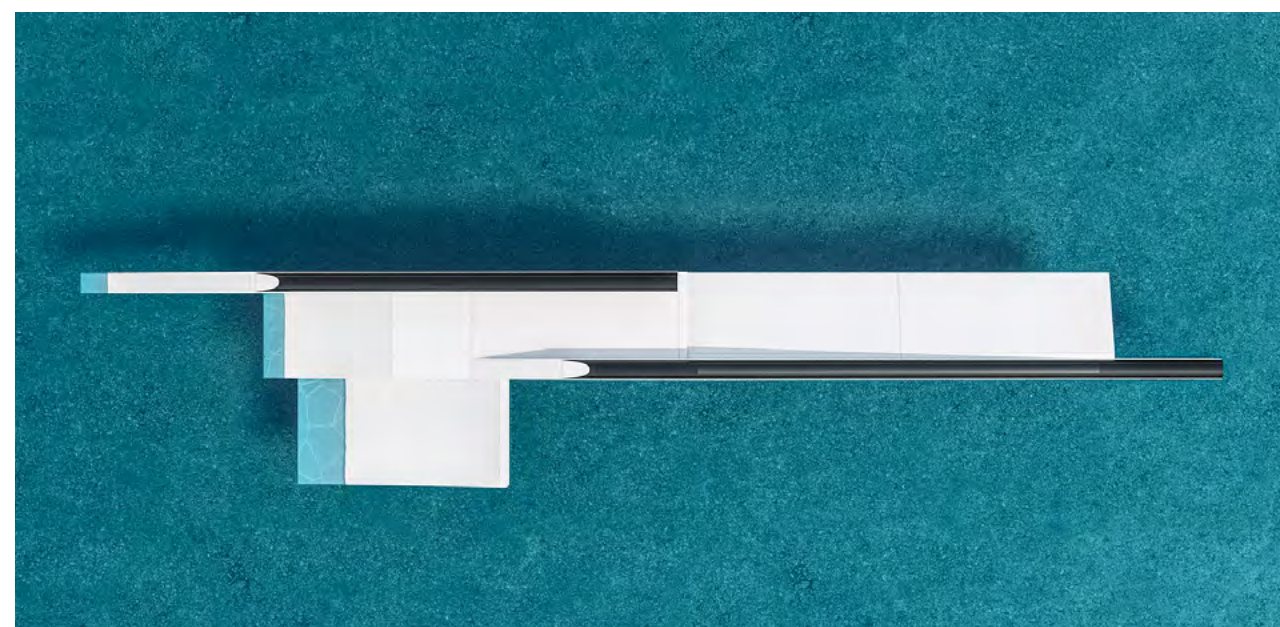

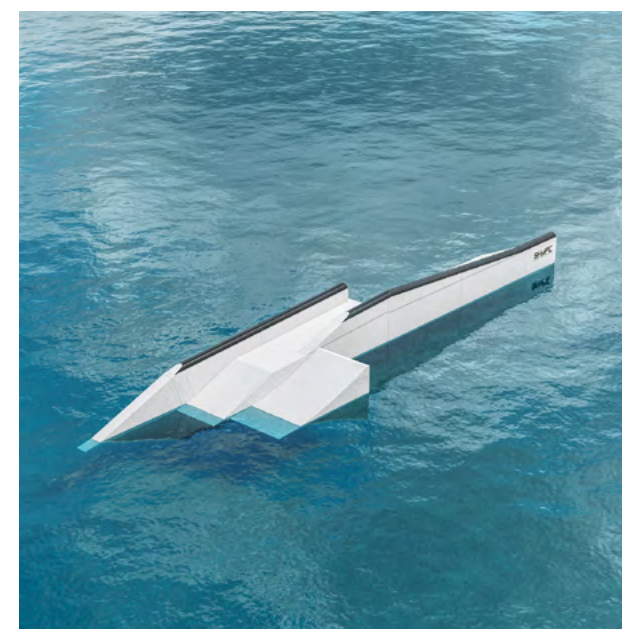

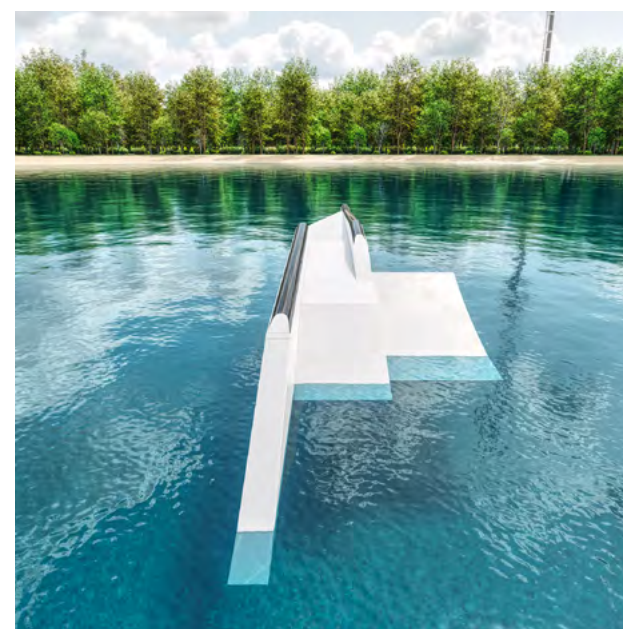

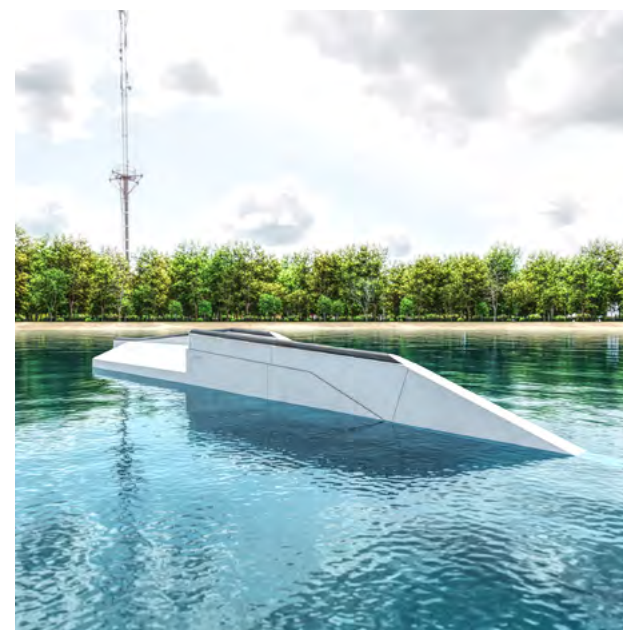

Item no. 12-416-V4

L x W x H: 2,120 x 400 x 180 cm

2,600 kg EUR 1,342,- /mo.

Complete setup: **EUR 42,000,-**

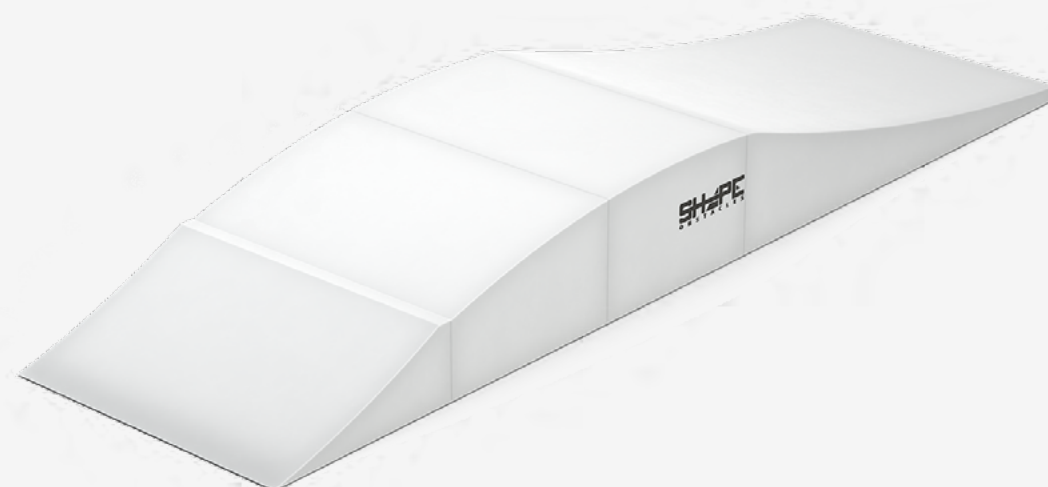

Team Series

Doms Tank

Riding the mega ramps at lake ronix and events like "Red Bull Rising High" really made me want to design one myself. I'm more than stoked that Shape Obstacles gave me the chance to do so. No more knee or back pain after hitting kickers to the flats all day. With this ramp you can boost of a kicker with a smooth landing every lap. From just riding over it to big sendy tricks - everyone can have a good time on it. It's designed for all riders amateurs to pros.

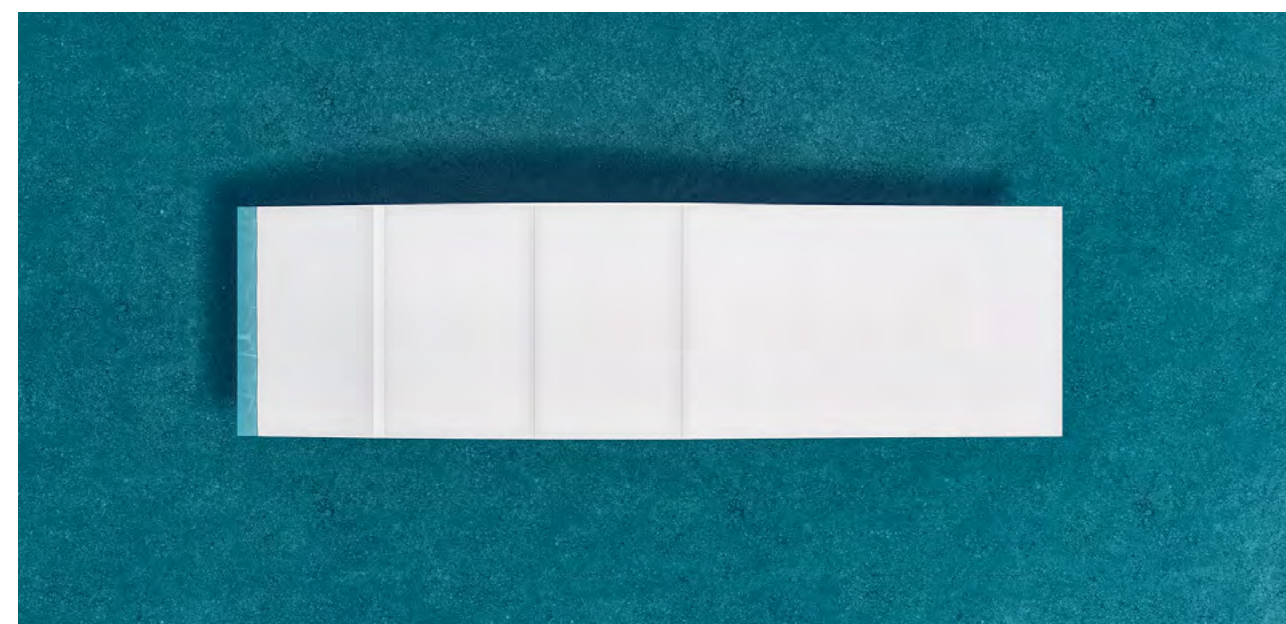

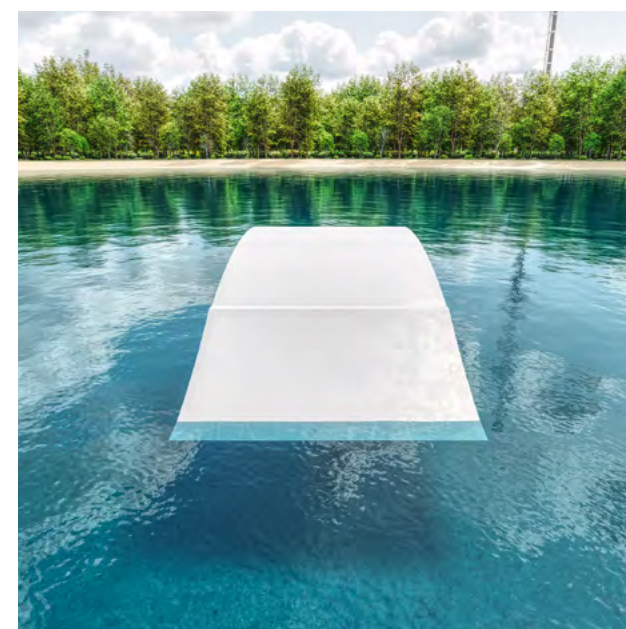

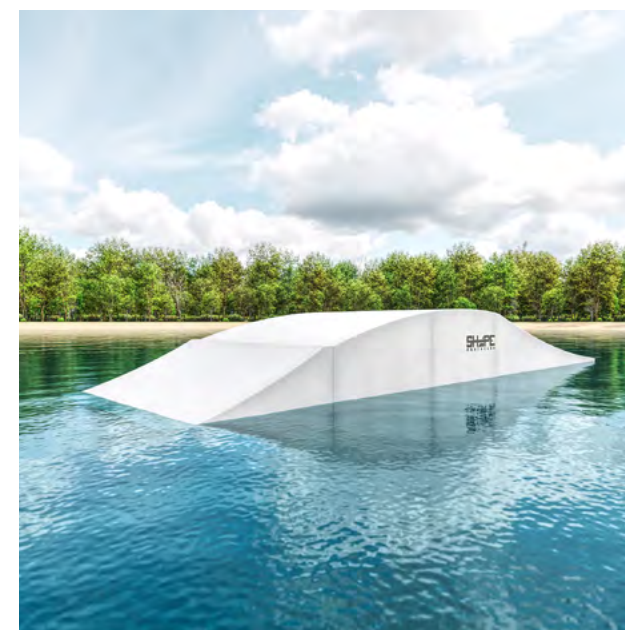

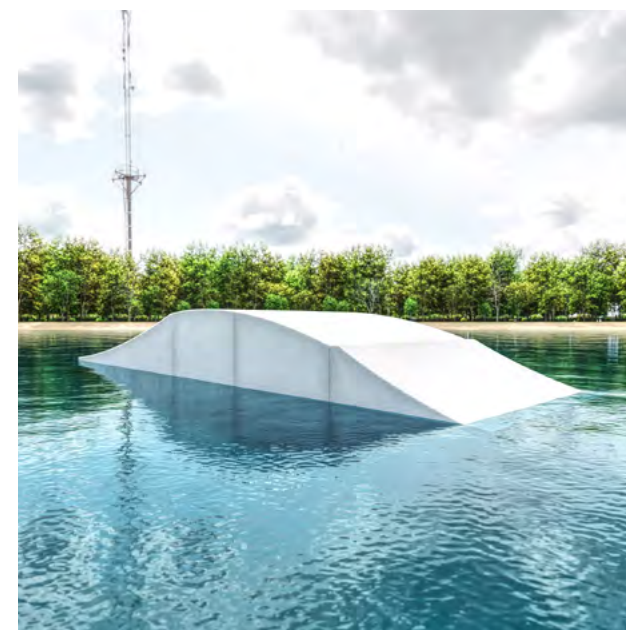

Item no. 12-416-V8

L×W×H: 1,950 × 395 × 240 cm

6,000 kg EUR 1,885,- /mo.

Complete setup: **EUR 59,000,-**

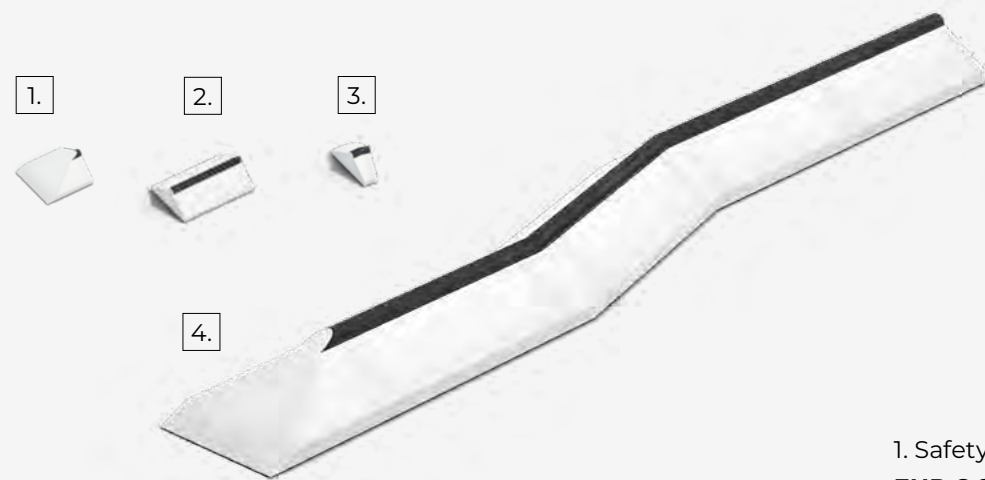

Team Series

Dom's Rail

I really wanted to have a double elbow pipe with this new feature. Adding the banks on all sides opens up a lot of possibilities for different lines you cannot do on any other obstacle in your park. Its also easy to split the pieces apart or add more if needed. Gives you a lot of possibilities to change it up for riders that get tired of hitting the same feature over and over again. Im super exited about this one and cannot wait to see what people will throw down on this thing.

Item no. 12-432-V1

L×W×H: 2,000 × 199 × 99 cm

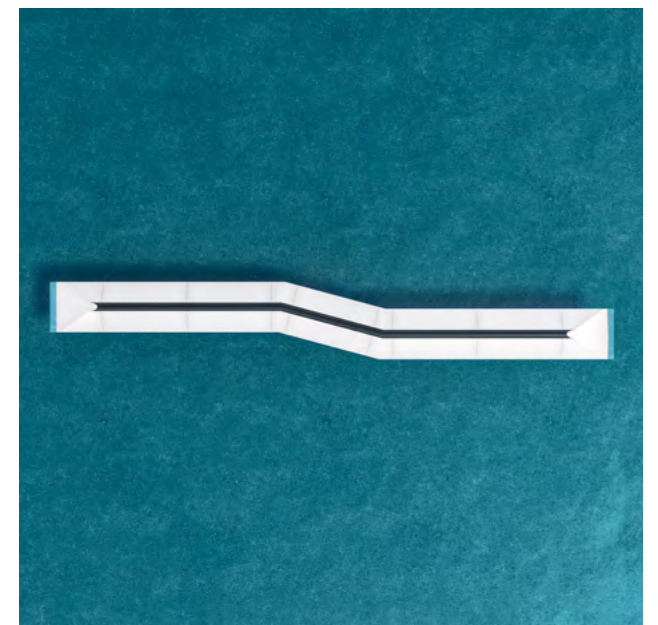

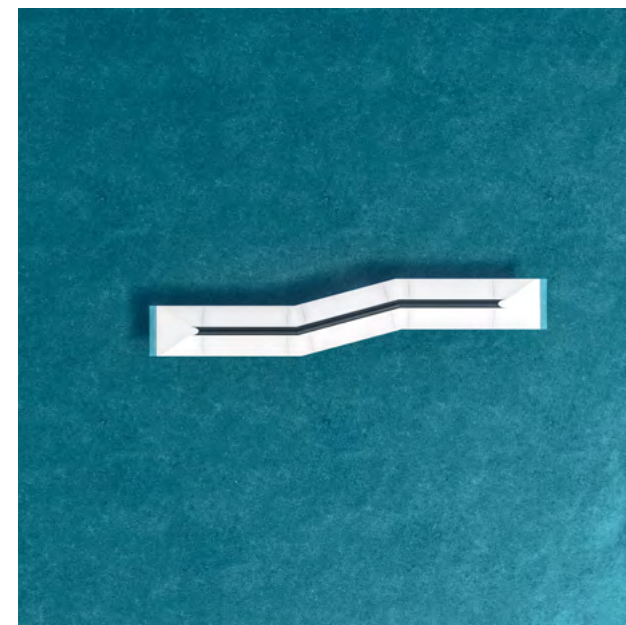

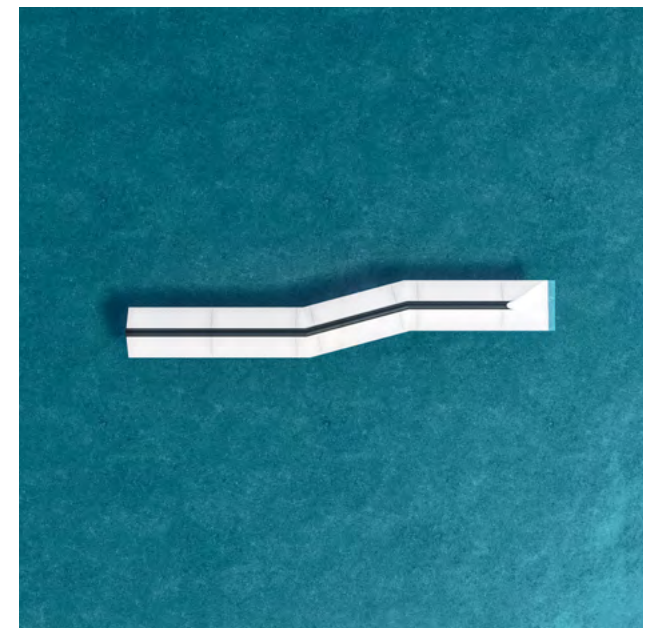

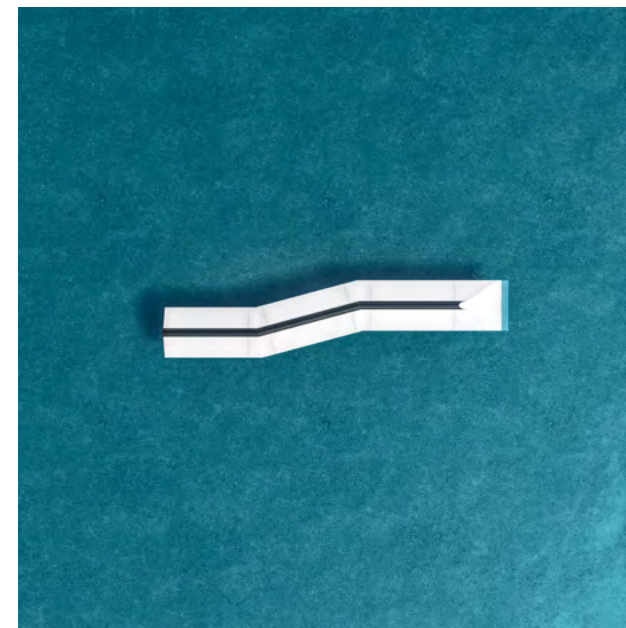

2,500 kg EUR 1,166,- /mo.

4. Standard setup: **EUR 36,500,-**

1. Safety:
EUR 6,200.-

2. Middle Part:
EUR 6,700.-

3. Curve Part
EUR 7,100.-

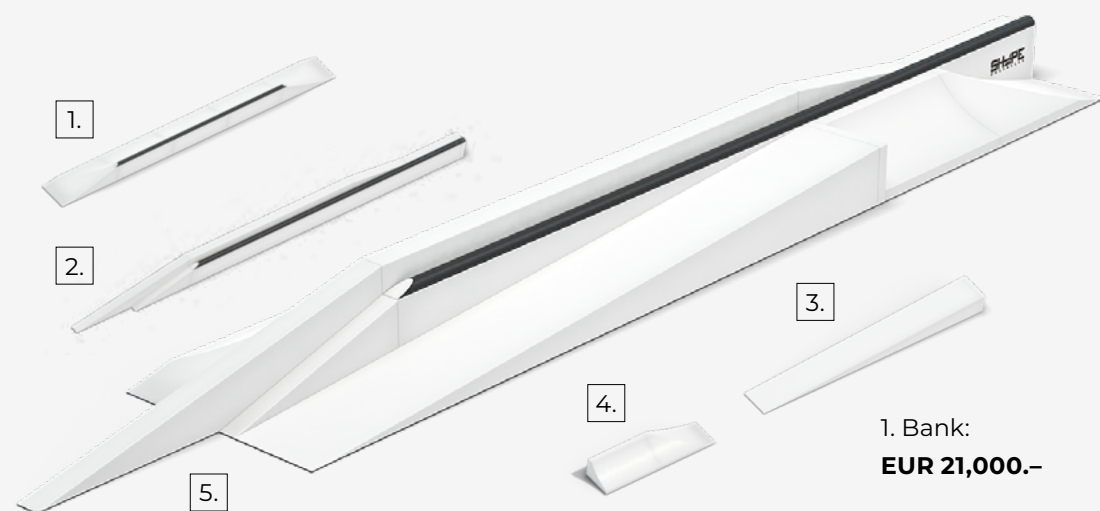

Team Series

Pedro Caldas

I tried to combine some of the aspects of obstacles I loved the most when I was a grom with the ones I love the most today. I believe a park should be able to change its setup through the season. This obstacle is not only thought to be hackable alone, but also with any other SHAPE obstacle.

1. Bank:
EUR 21,000.-

2. A-Frame + Creeper:
EUR 39,500.-

3. Up Box:
EUR 12,500.-

4. ProBank:
EUR 11,500.-

Item no. 12-421-V2

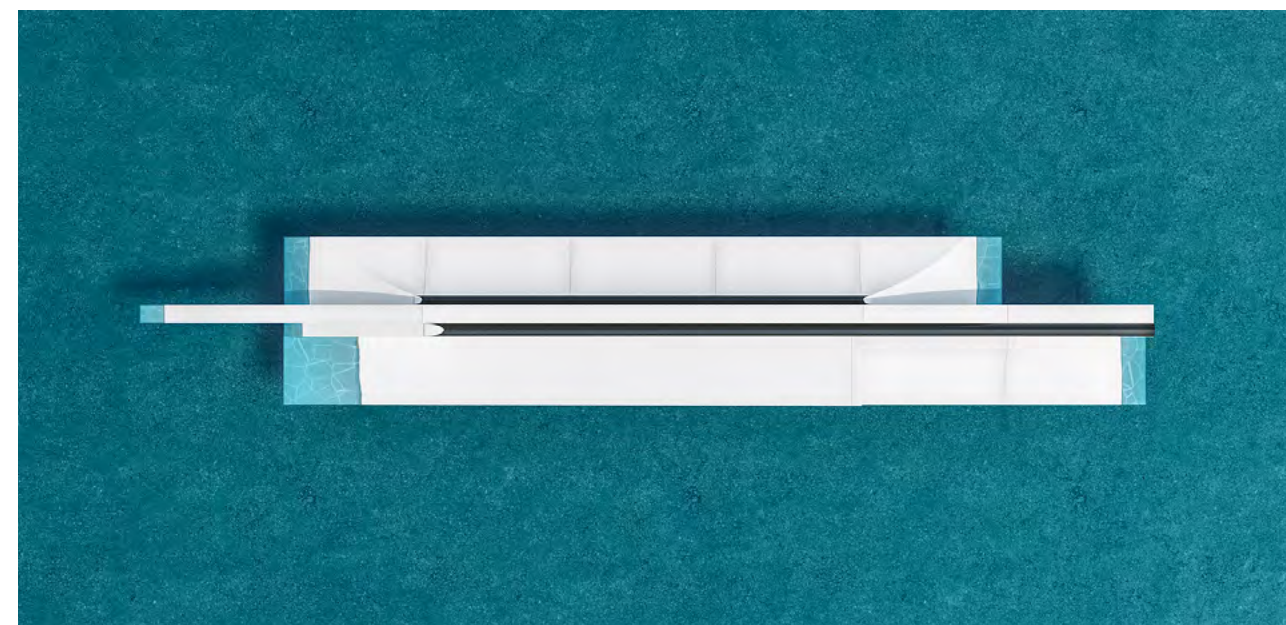

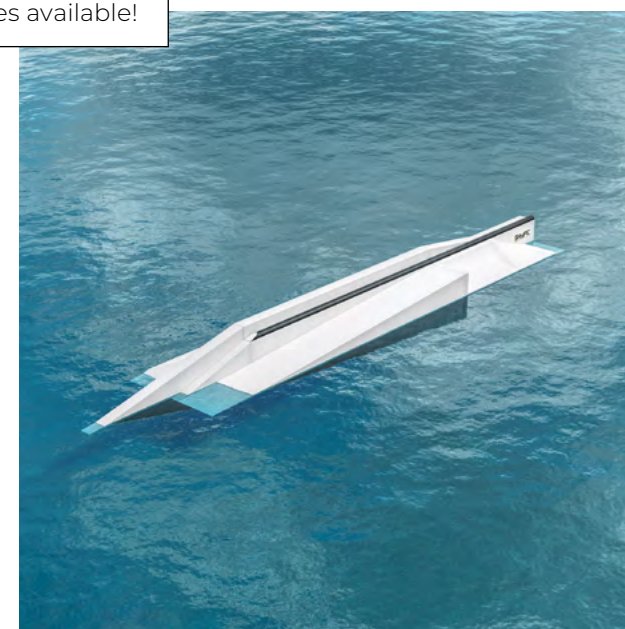

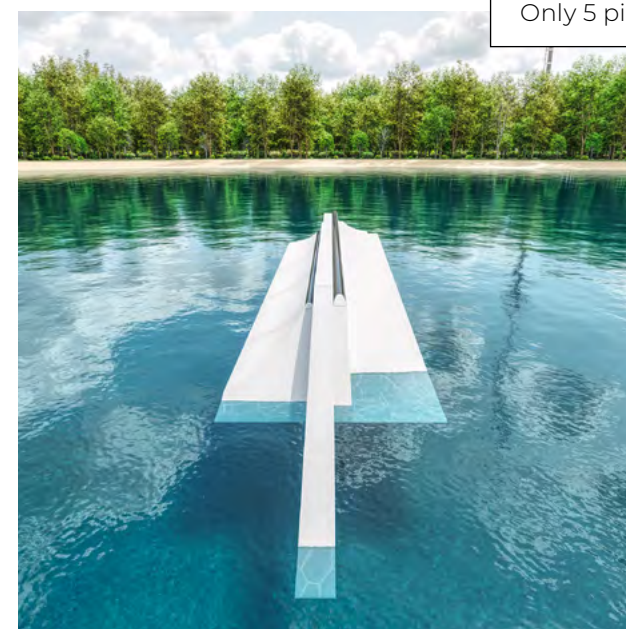

L x W x H: 2,800 x 375 x 170 cm

6,500 kg EUR 2,220,- /mo.

5. Complete setup: **EUR 69,500,-**

LIMITED EDITION
Only 5 pieces available!

Team Series

Pedro's A-Frame

My vision was to create an obstacle that, when separated into pieces, would include classic elements like the C&B and A-Frame obstacles every cable park should have. When assembled, it would offer limitless lines and hacks.

4.

Item no. 12-433

L x W x H: 2,400 x 400 x 155 cm

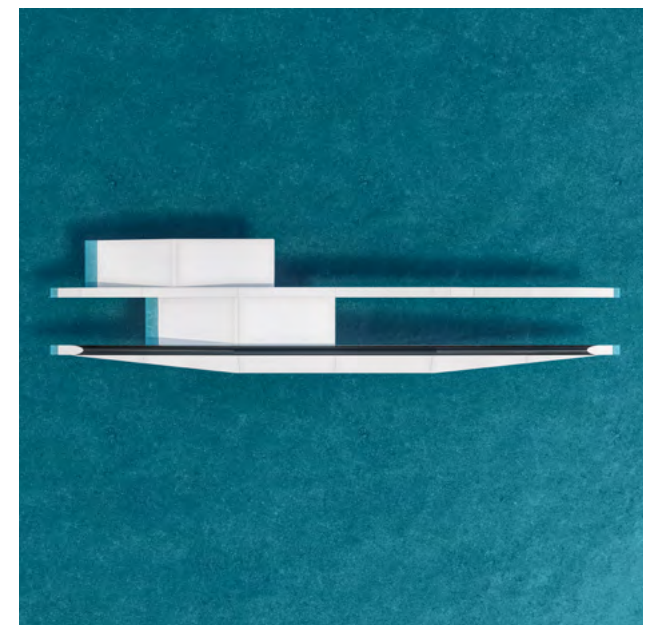

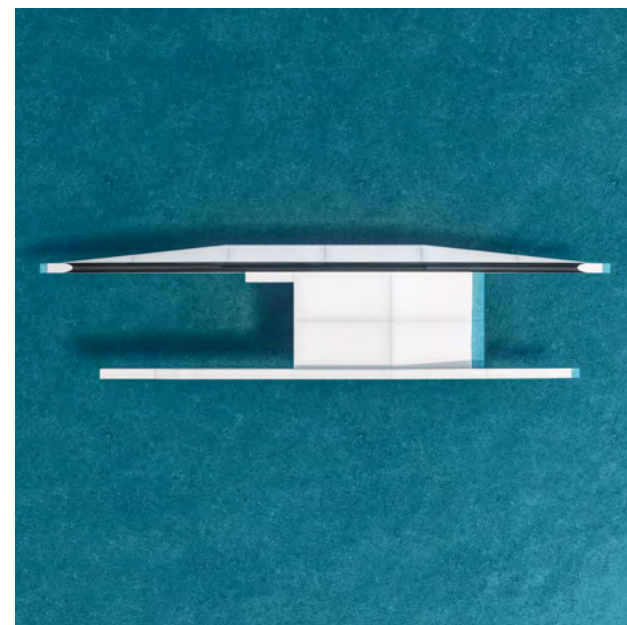

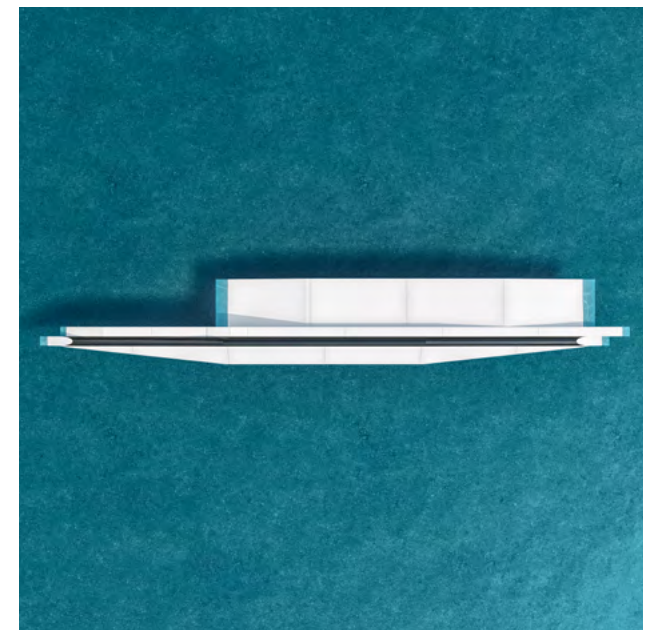

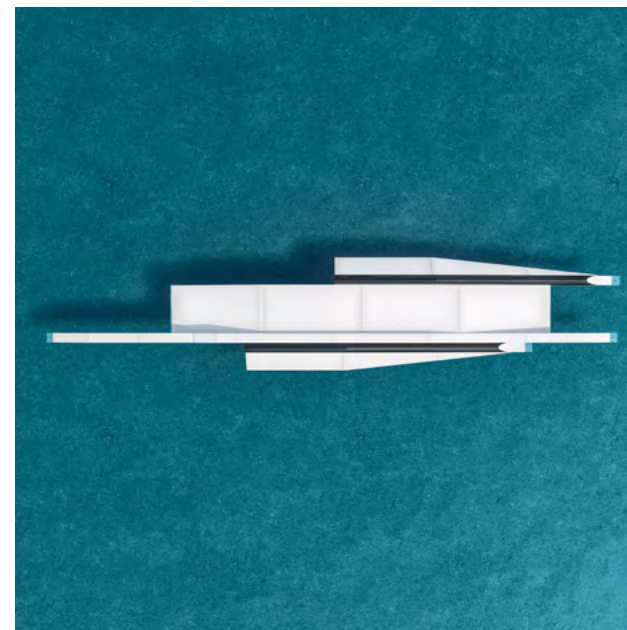

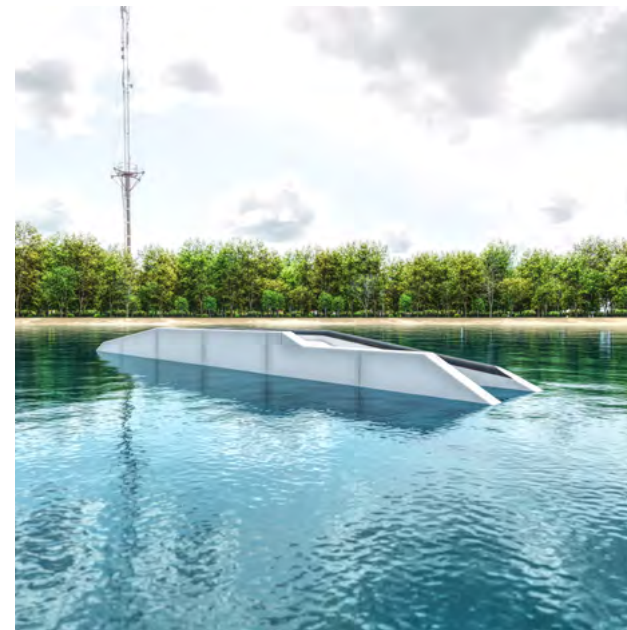

4,500 kg EUR 1,741,- /mo.

4. Complete setup: **EUR 54,500,-**

1. Aframe Wall:
EUR 26,500.-

2. Box:
EUR 17,000.-

3. Step down:
EUR 19,500.-

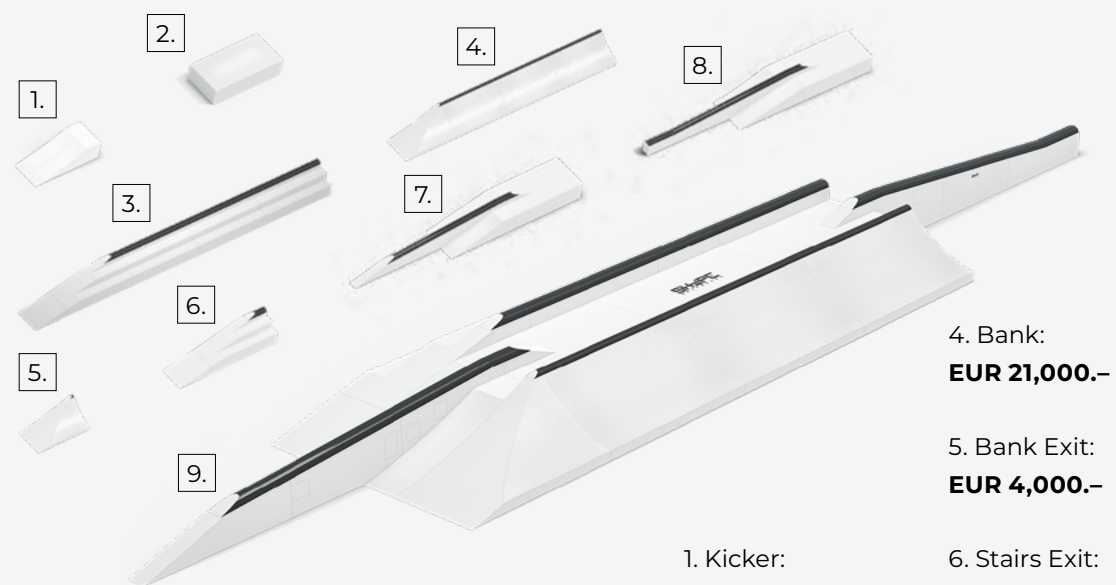

Team Series

Jules Charraud

I designed this rail with the idea that it could bring together as many existing bases as possible in today's wake, while providing the maximum possibility of hack and line combo, despite the large number of different parts. With a screwdriver and a 17mm spanner you can quickly create something new.

Item no. 12-418-V1

L x W x H: 2,975 x 520 x 140 cm

5,300 kg EUR 2,188,- /mo.

9. Standard setup: **EUR 68,500,-**

1. Kicker:
EUR 3,500.-

2. Middle Box:
EUR 4,500.-

3. Stair:
EUR 21,000.-

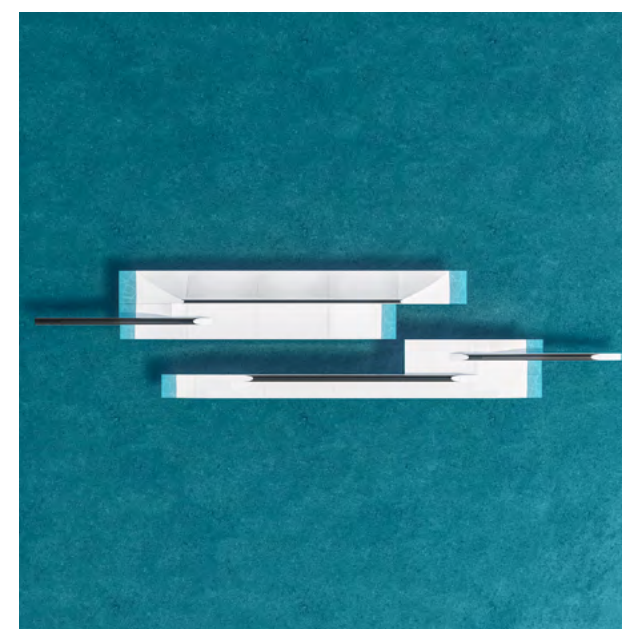

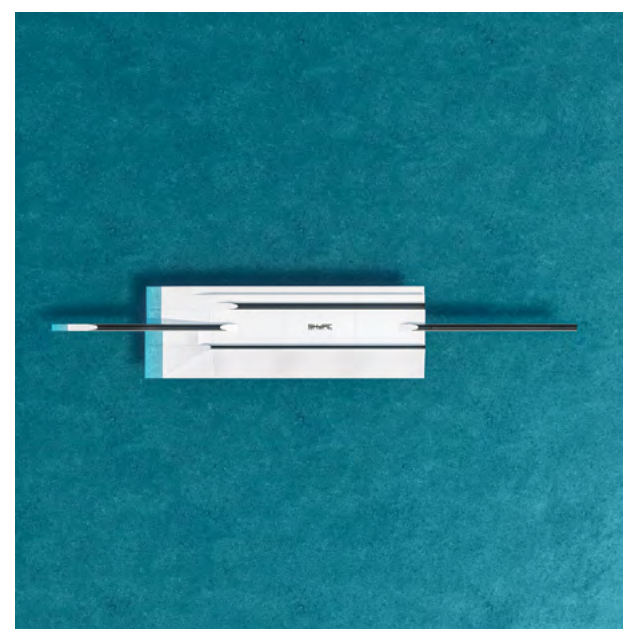

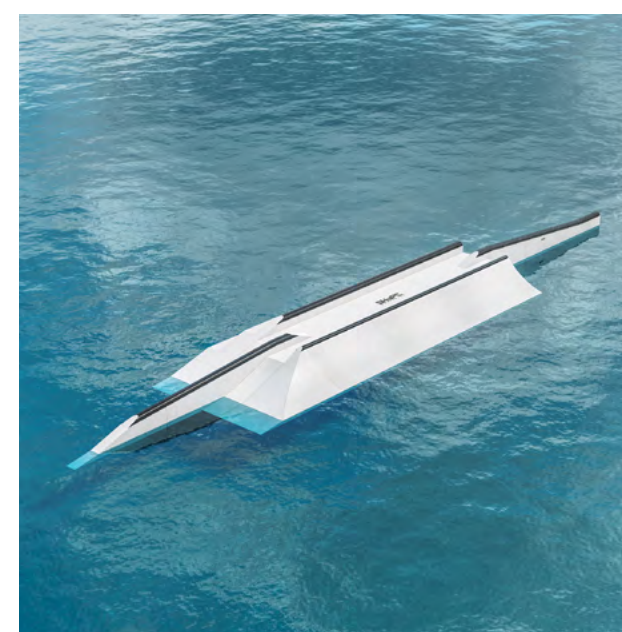

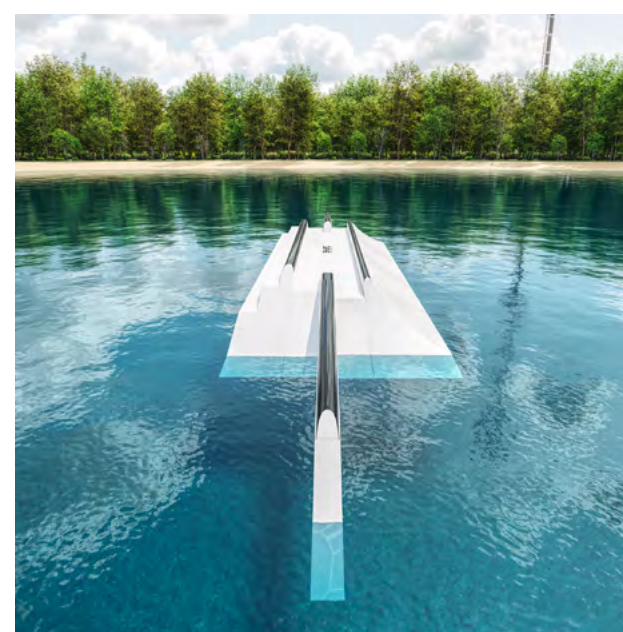

4. Bank:
EUR 21,000.-

5. Bank Exit:
EUR 4,000.-

6. Stairs Exit:
EUR 4,000.-

7. UpRail Box:
EUR 12,500.-

8. DownRail Box:
EUR 12,500.-

Team Series

Massi Piffaretti

With inspiration from the snowboard and wakeboard scene I wanted to create a fun, smooth rail that suites all levels of riders and leaves room for creativity! Built around a center rainbow rail, combed with a technical stair aspect and smooth transition, my signature feature is allows every level of rider to have fun. With interchangeable pieces, this rail allows for multiple combinations to continually give the feature a fresh feel in any park!

Item no. 12-430-V1

L x W x H: 2,000 x 400 x 190 cm

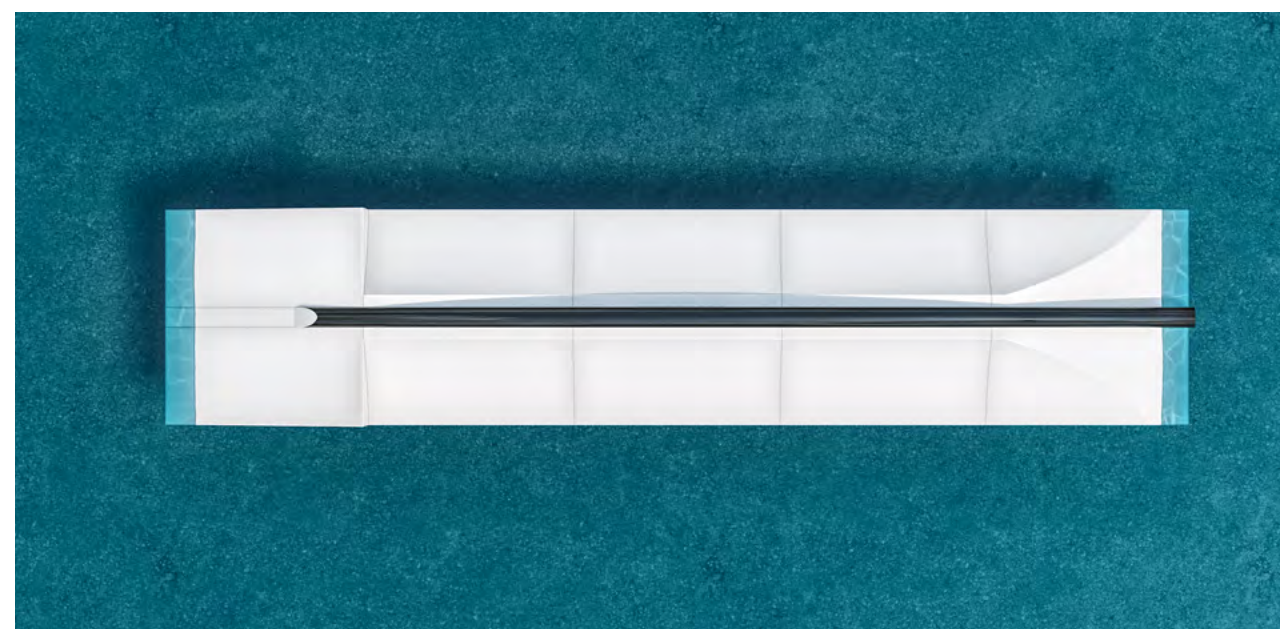

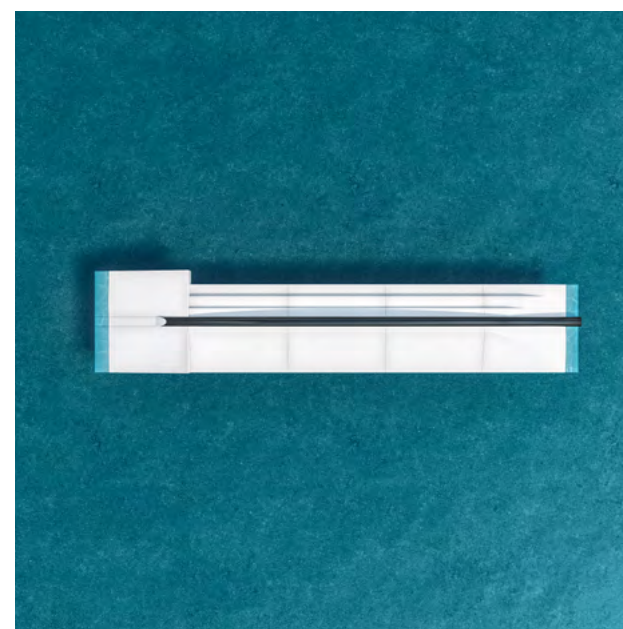

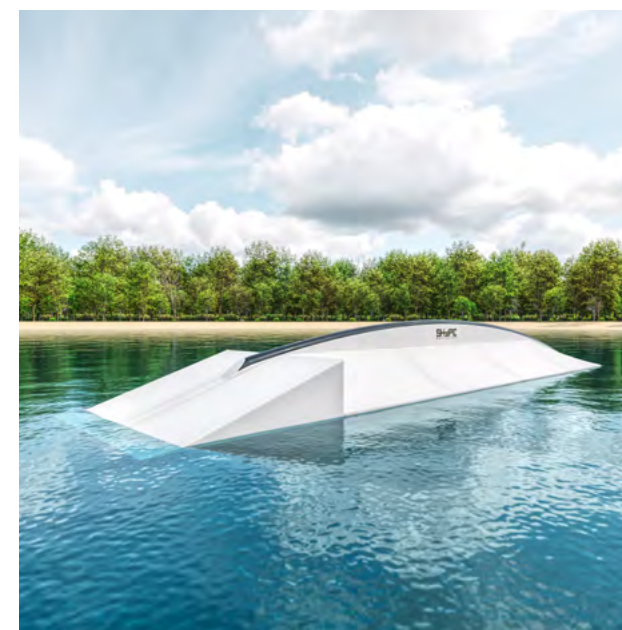

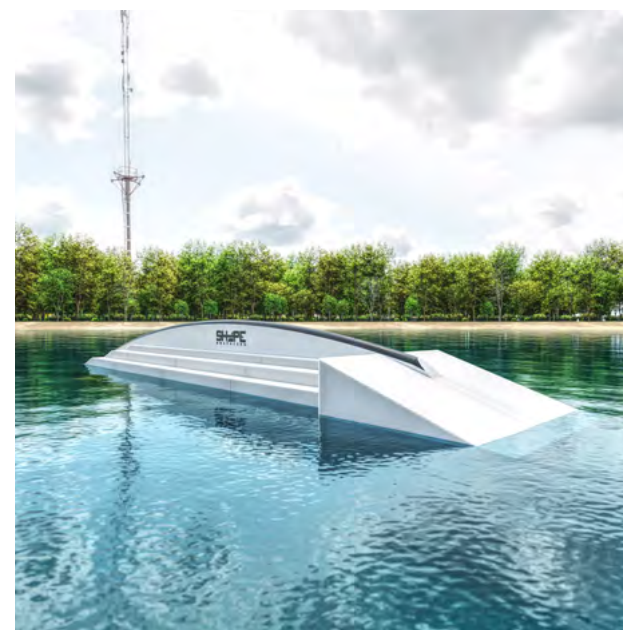

4,200 kg EUR 1,997,- /mo.

4. Complete setup: **EUR 62,500,-**

1. Rainbow:
EUR 26,500.-

2. Stairs:
EUR 21,000.-

3. CWall:
EUR 21,000.-

Team Series

Joe Battleday

This obstacle really brings together my favourite aspects of a rail, with the option of landing in transition, rail-to-rail lines out of pool, or just a simple full pull, it truly offers almost infinite lines for riders of all levels.

Item no. 12-420-V2

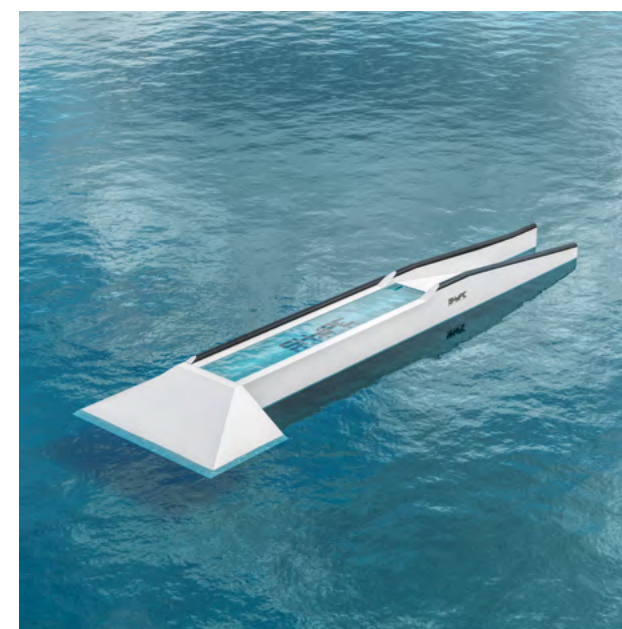

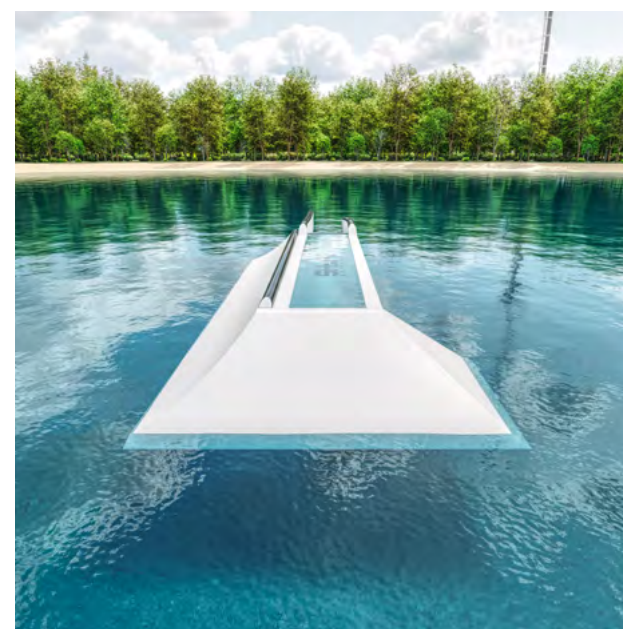

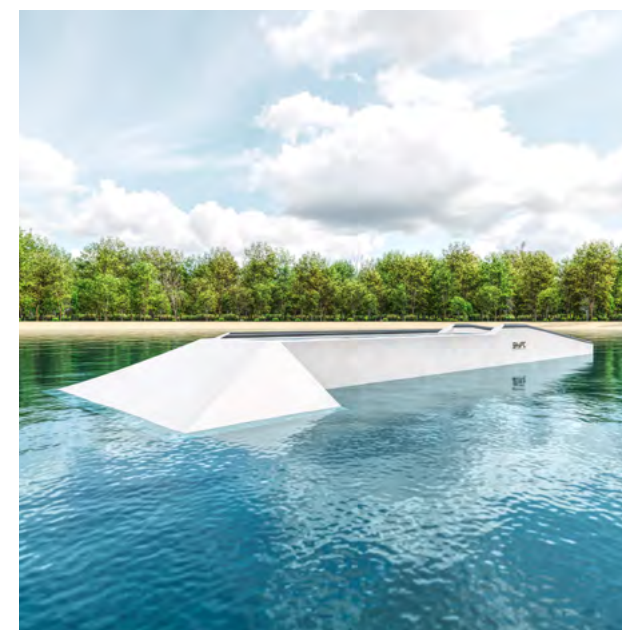

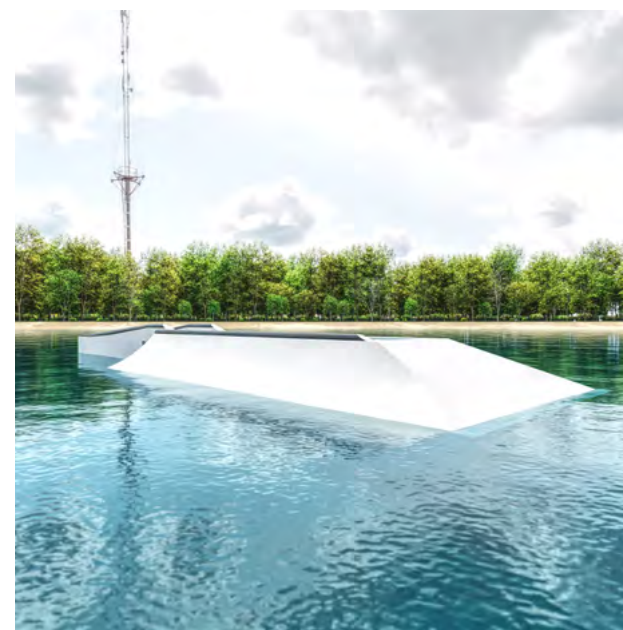

L x W x H: 2,670 x 610 x 200 cm

11,400 kg EUR 2,731,- /mo.

3. Standard setup: **EUR 72,500,-**

1. Addon Bank:
EUR 21,000.-

2. Addon Handrail:
EUR 7,500.-

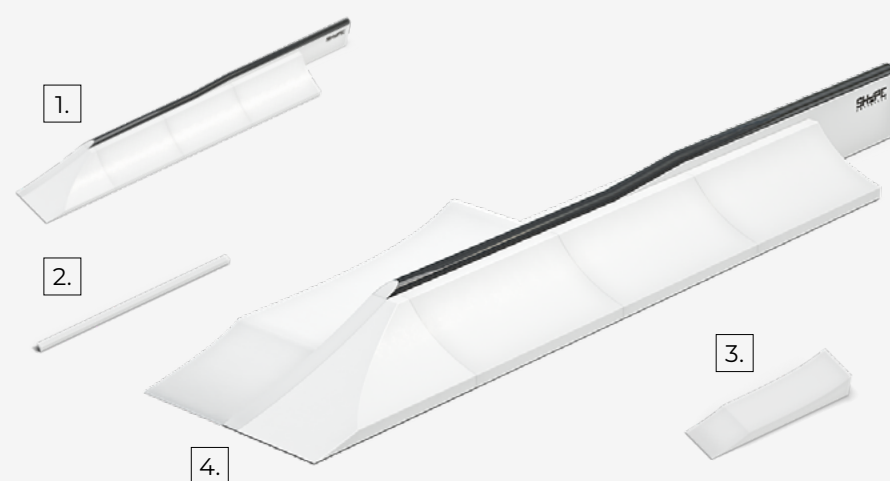

Team Series

Elena Bodi

I'm part of the new wakeboarding generation, having so much fun on long rails, but I also love the feeling of landing in banks. So I tried to create an obstacle that provides everything, It's unbelievable how many lines you can do on this one and I hope you enjoy it as much as I do!

Item no. 12-425-V1

L×W×H: 2,000 × 470 × 195 cm

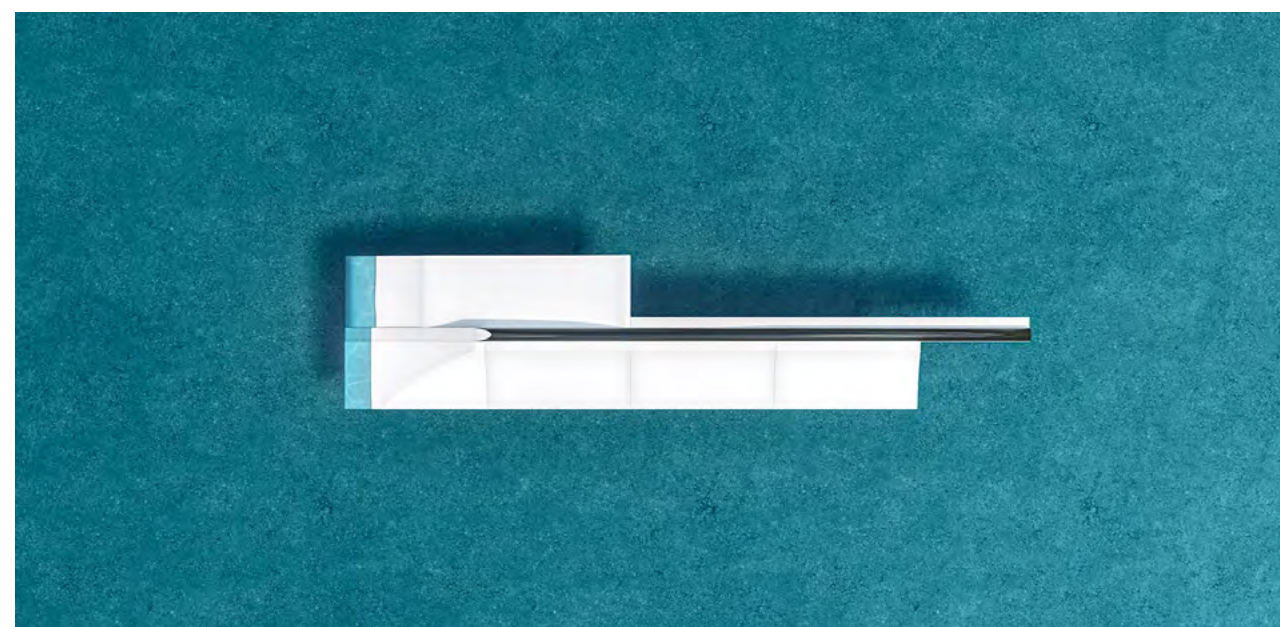

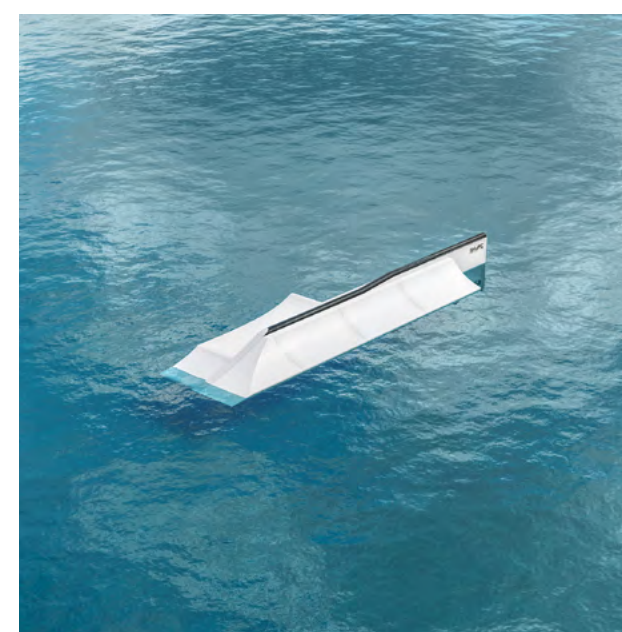

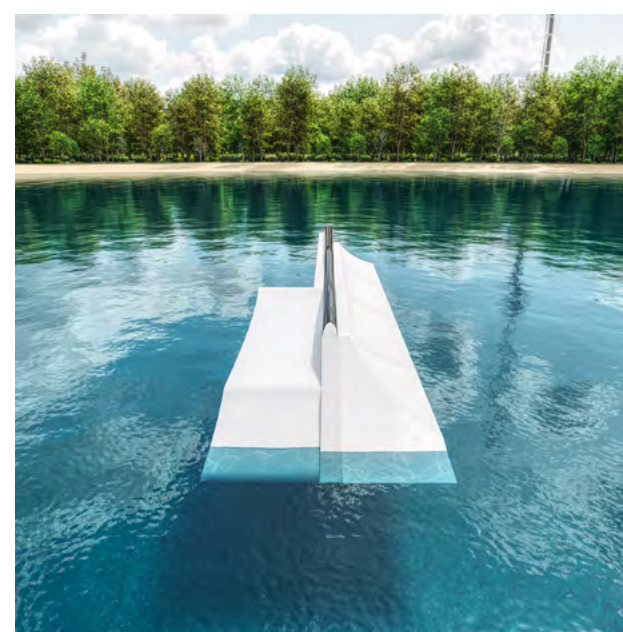

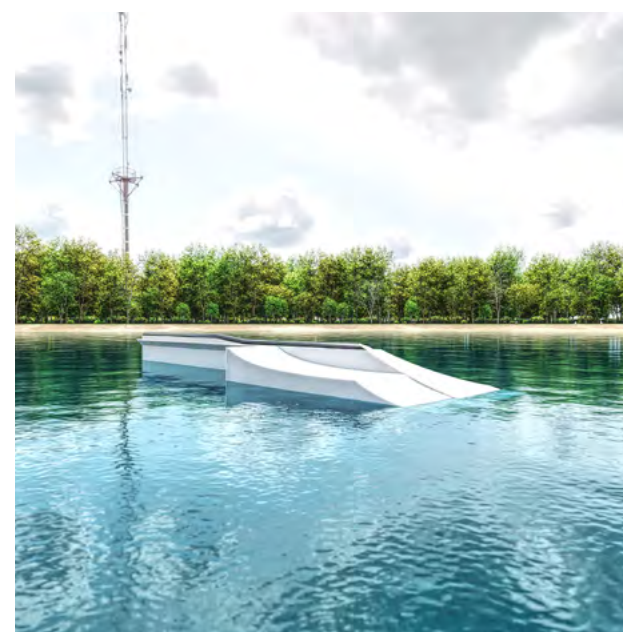

4,600 kg EUR 1,422,- /mo.

4. Complete setup: **EUR 44,500,-**

1. Uprail Wall:
EUR 40,500.-

2. Creeper:
EUR 1,500.-

3. Kicker:
EUR 9,500.-

Team Series

Jamie Lopina

The obstacle originated with the idea of a big corrugated pipe, then sort of just grew from there. Lake Ronix has had a ton of influence on my riding and corrugated pipes have always been a staple out there. Plus I just love how it sounds. I also love symmetry, so being able to create something so satisfying looking has been a dream come true. Banks and landers make it smooth, different add on pieces and setup options make it inclusive.

Item no. 12-431-V1

LxWxH: 1,600 x 600 x 195 cm

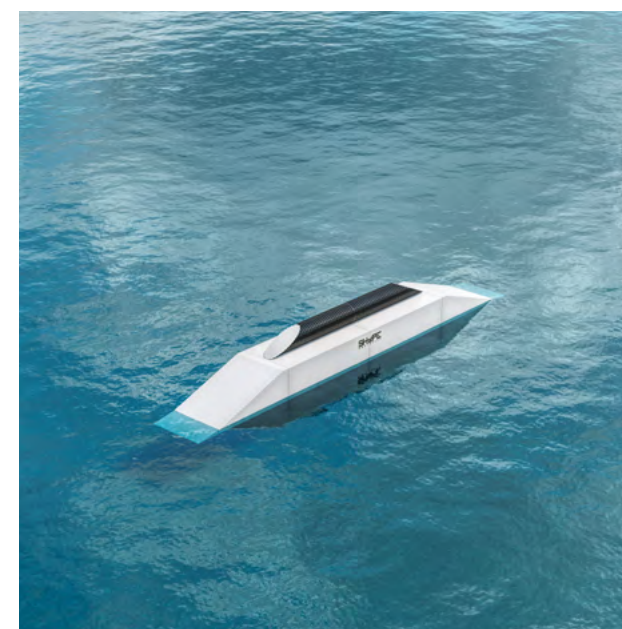

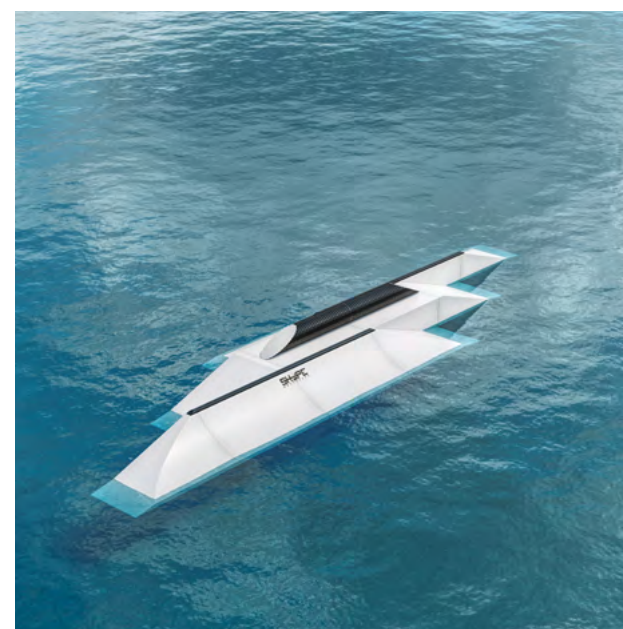

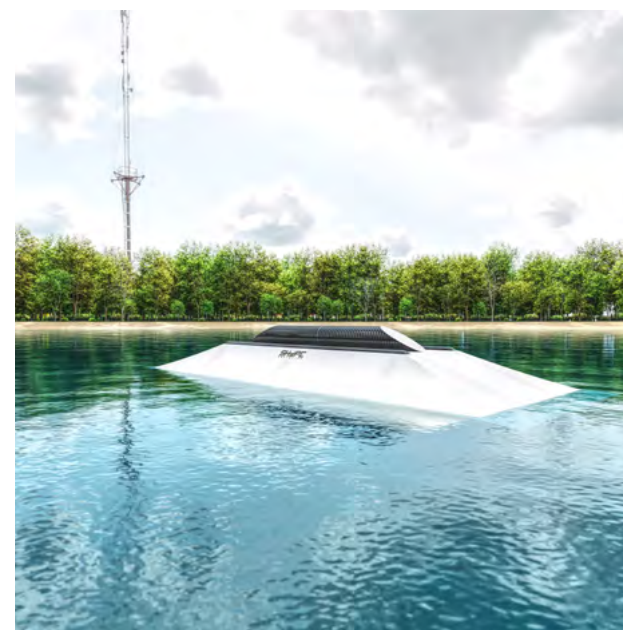

5,200 kg EUR 1,965,- /mo.

4. Complete setup: **EUR 61,500,-**

1. Pipe riffle:
EUR 9,500.-

2. Pipe smooth:
EUR 9,500.-

3. Rainbow:
EUR 10,500.-

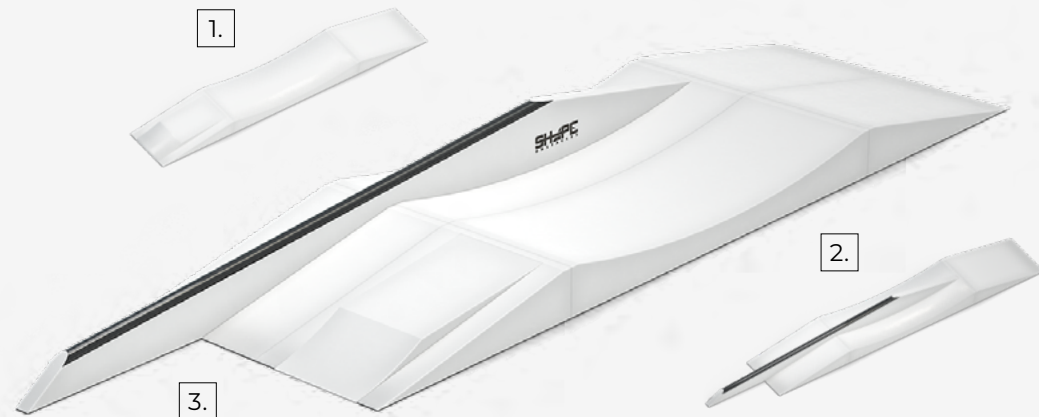

Team Series

Lisa Baloo

I really wanted to make an obstacle that is fun to hit every lap, making it possible to find a different line every time. My signature feature is designed for any level of riding and is suitable for any cablepark - 2.0 or the full size.

Item no. 12-428-V1

L×W×H: 2,100 × 400 × 185 cm

5,500 kg EUR 1,581,- /mo.

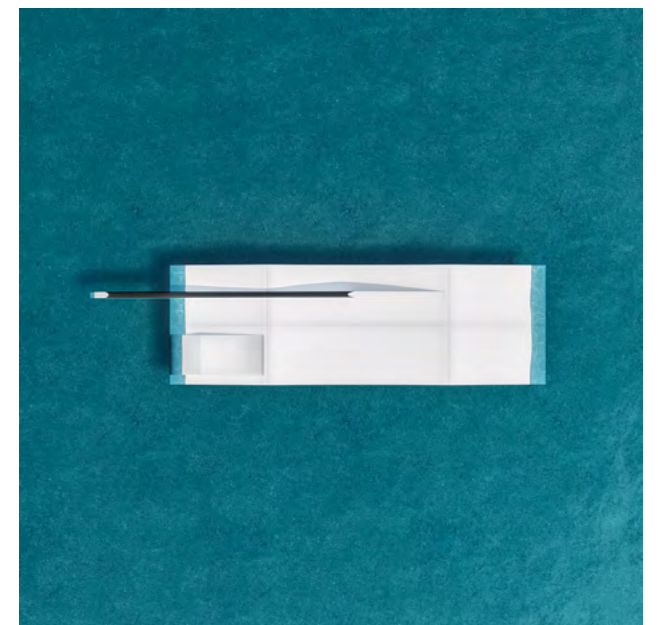

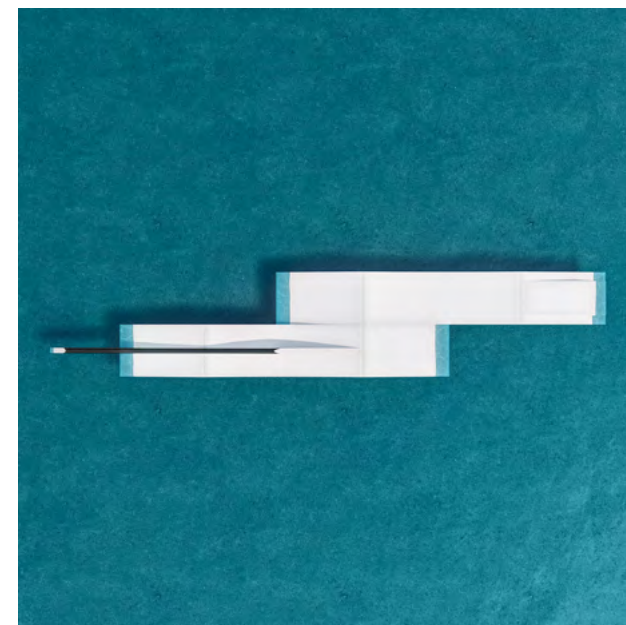

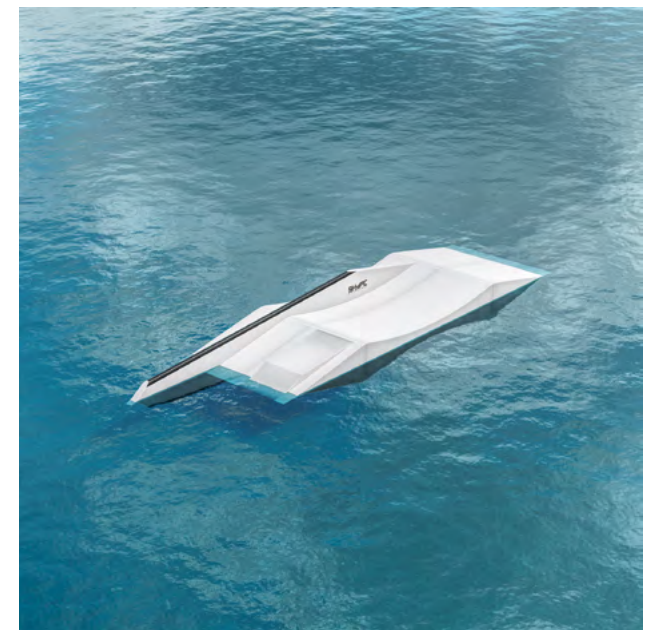

3. Complete setup: **EUR 49,500,-**

1. Part 1:

EUR 21,500.-

2. Part 2:

EUR 32,500.-

Team Series

Max van Helvoort

The thought process behind designing my feature was to have it available for intermediate, advanced and pro riders. It had to be designed so that it could be used for riding in both ways, hence both full size and 2.0 would work. It also adds hack possibilities and I did not want it to be too big.

My favourite features are rail-to-rails, banks and gaps, so I tried to design something that includes all those features for a good price.

Item no. 12-429-V1

L x W x H: 1,600 x 400 x 165 cm

4,500 kg EUR 1,422,- /mo.

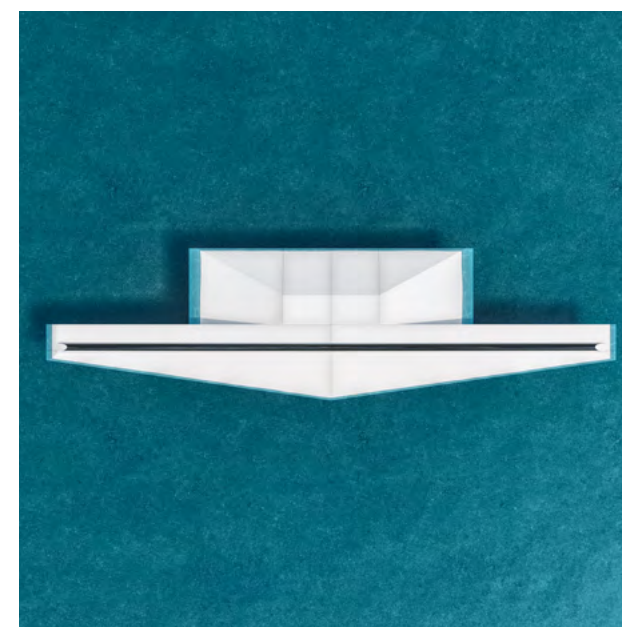

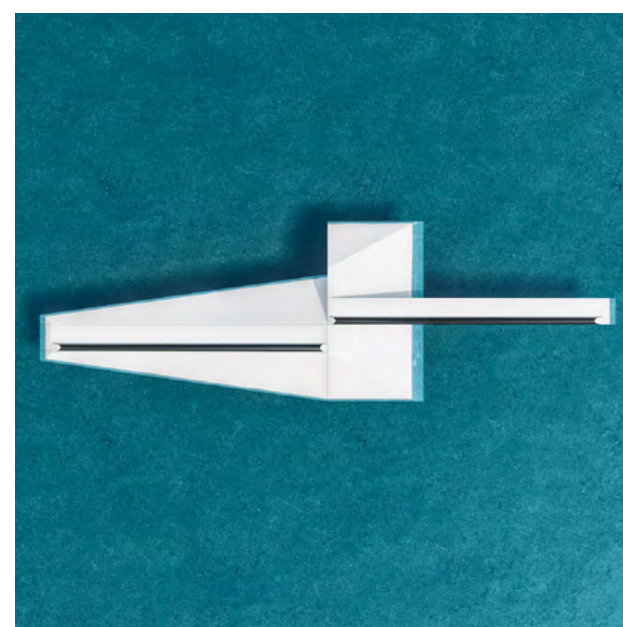

3. Complete setup: **EUR 44,500,-**

1. Part 1:

EUR 24,500.-

2. Part 2:

EUR 24,500.-

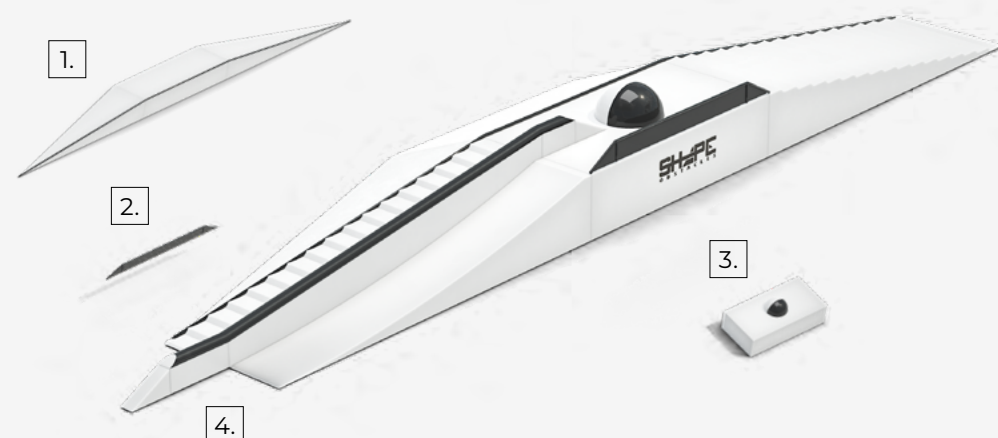

Team Series

Spanish Mafia

In wakeboarding, there is no better feeling than landing into a transition, which is why we came up with this idea. If you know us, you know that we absolutely love to make noise and for us landing into stairs feels crazy good.

Taps are also part of our riding and that's why we incorporated the buoy. From beginners to pros, every can have fun on it. See you in water!

Item no. 12-427-V1

L x W x H: 2,000 x 400 x 150 cm

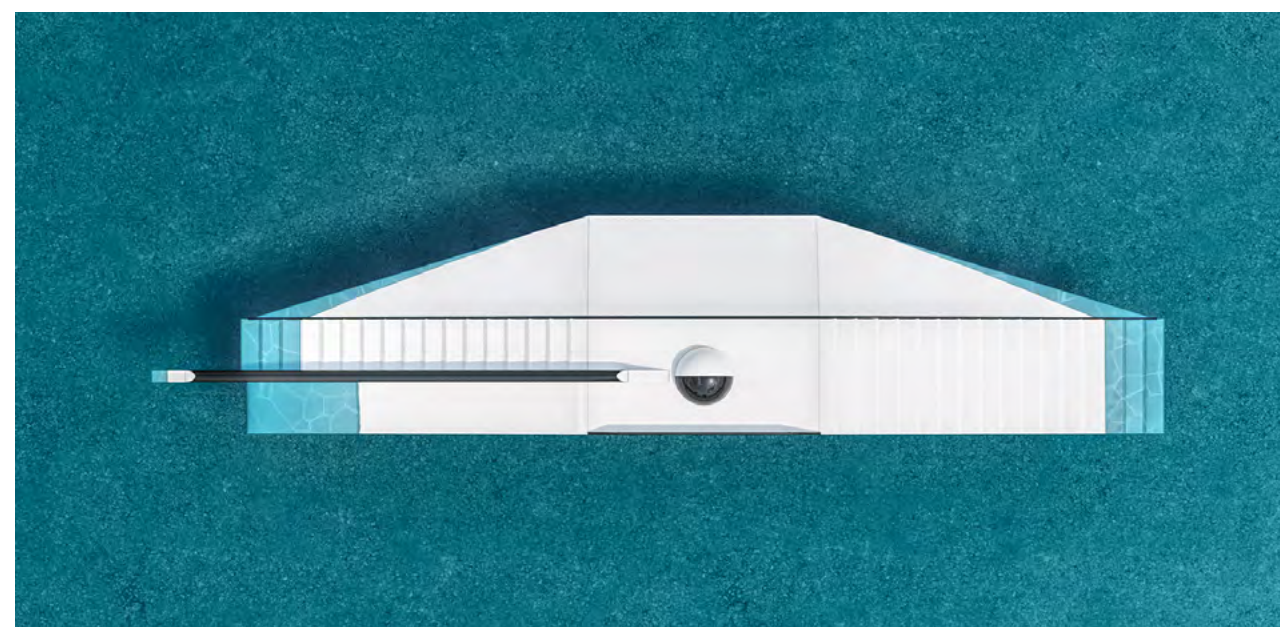

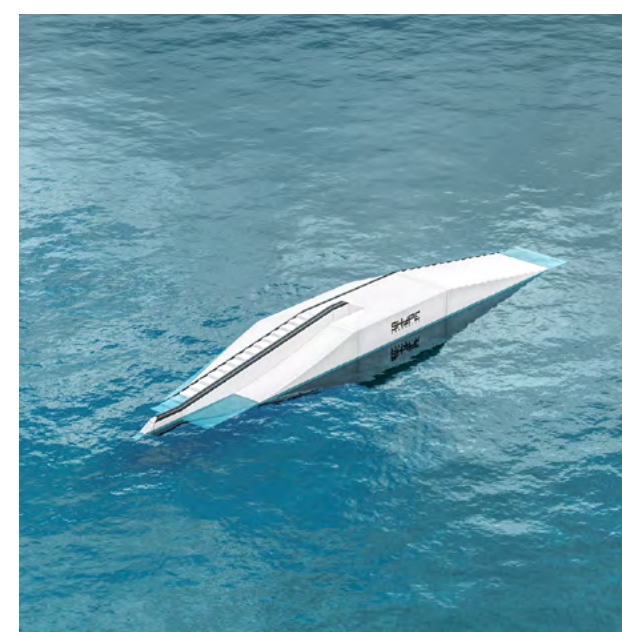

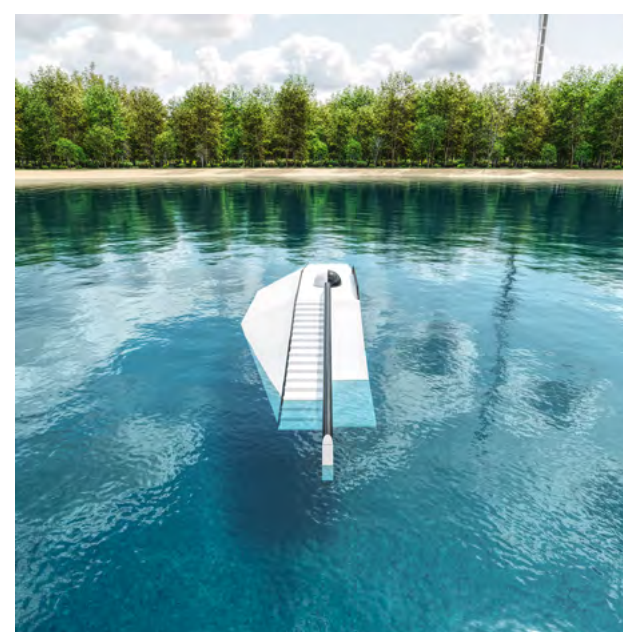

5,100 kg EUR 1,581,- /mo.

4. Complete setup: **EUR 49,500,-**

1. SteelRail Wall:
EUR 14,500.-

2. Handrail:
EUR 5,900.-

3. Addon Ball:
EUR 3,500.-

Shape Obstacles introduces the “Snow Line”

a game-changer for winter sports enthusiasts!

Designed to create a safe, fun, and progressive environment, the Snow Line is perfect for skiers and snowboarders of all skill levels. Beginners can build confidence while learning the fundamentals, while advanced riders will

discover plenty of opportunities to challenge themselves. With its well-designed obstacles, smooth transitions, and professional shaping, the Snow Line guarantees an exciting and dynamic riding experience.

What makes the “Snow Line” special?

- **Perfect for all skill levels** – Beginners get a controlled space to progress, while experienced riders can refine their tricks.
- **Expertly shaped obstacles** – Smooth surfaces and safe designs for optimal riding conditions.
- **Endless fun & creativity** – Whether you're practicing basic slides or complex tricks, the “Snow Line” offers room to grow.

The Snow Line is more than just a park – it's a place to learn, progress, and push your limits in a safe and inspiring setting.
