Shape Obstacles

pro riders and team

Team Series

Jamie Lopina

The obstacle originated with the idea of a big corrugated pipe, then sort of just grew from there. Lake Ronix has had a ton of influence on my riding and corrugated pipes have always been a staple out there. Plus I just love how it sounds.

I also love symmetry, so being able to create something so satisfying looking has been a dream come true. And of course, it had to be fun. Banks and landers make it smooth, different add on pieces and setup options make it inclusive, and Shape makes the idea a reality! Can't wait to see one of these floating.
