Shape Obstacles

pro riders and team

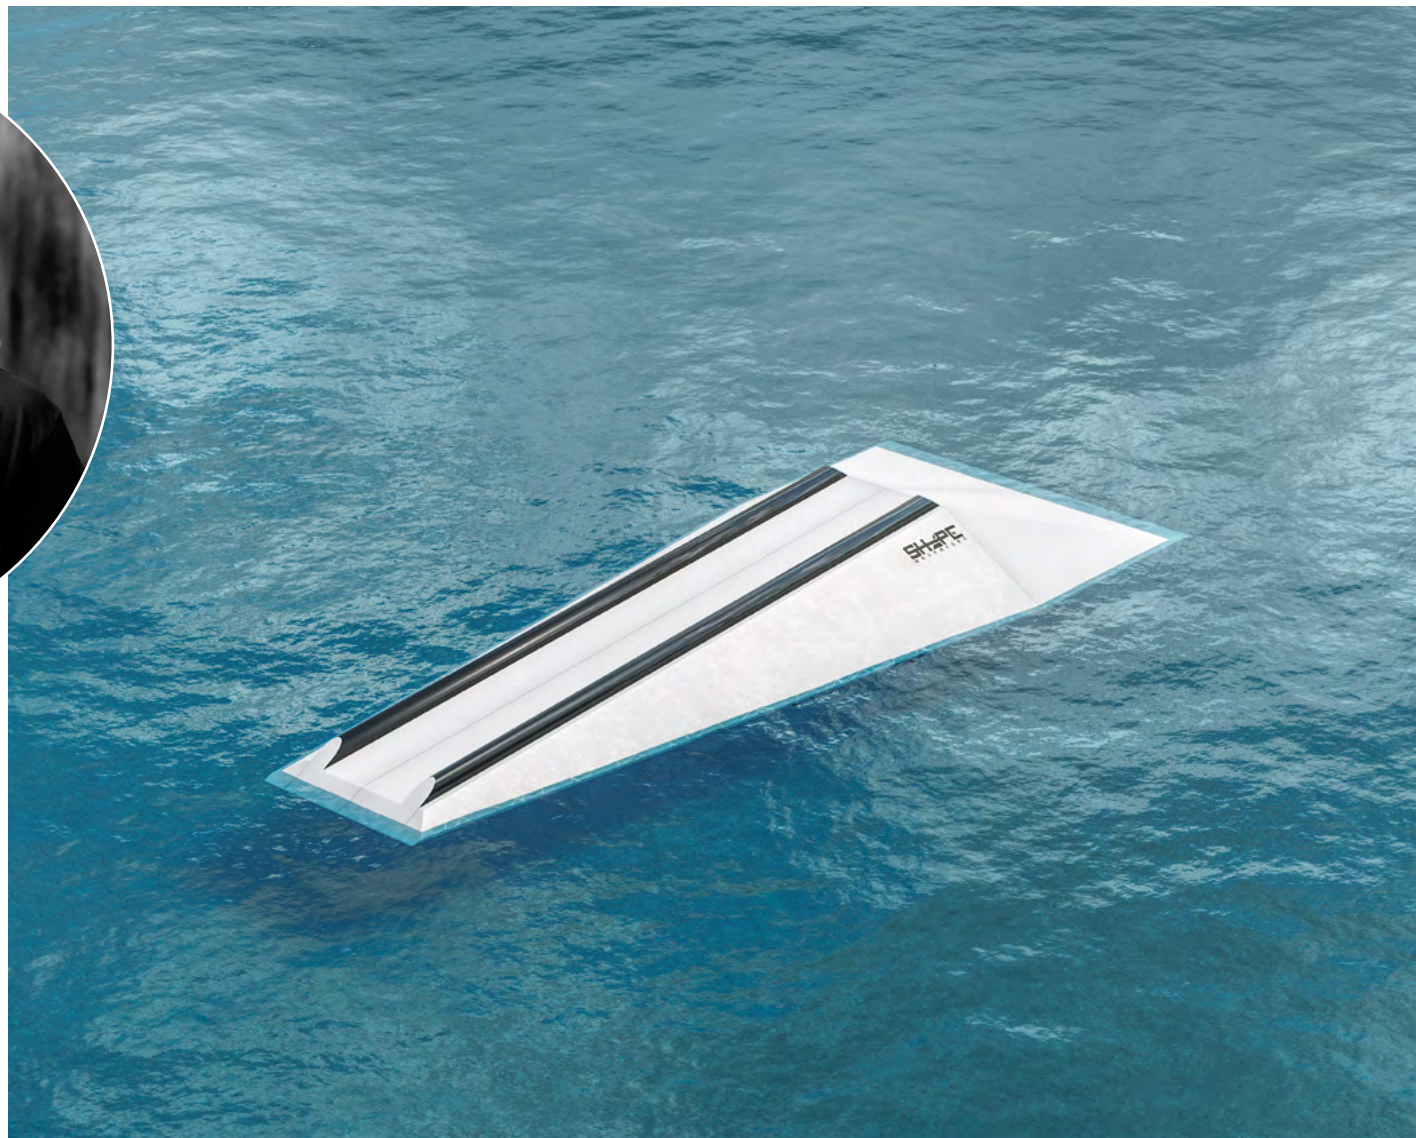

Team Series

The thought process behind designing my feature was to have it available for intermediate, advanced and pro riders. It had to be designed so that it could be used for riding in both ways, hence both full size and 2.0 would work. It also adds hack possibilities and I did not want it to be too big.

My favourite features are rail-to-rails, banks and gaps, so I tried to design something that includes all those features for a good price.

Max van Helvoort

Part 1: **EUR 24,500 net**

Part 2: **EUR 24,500 net**

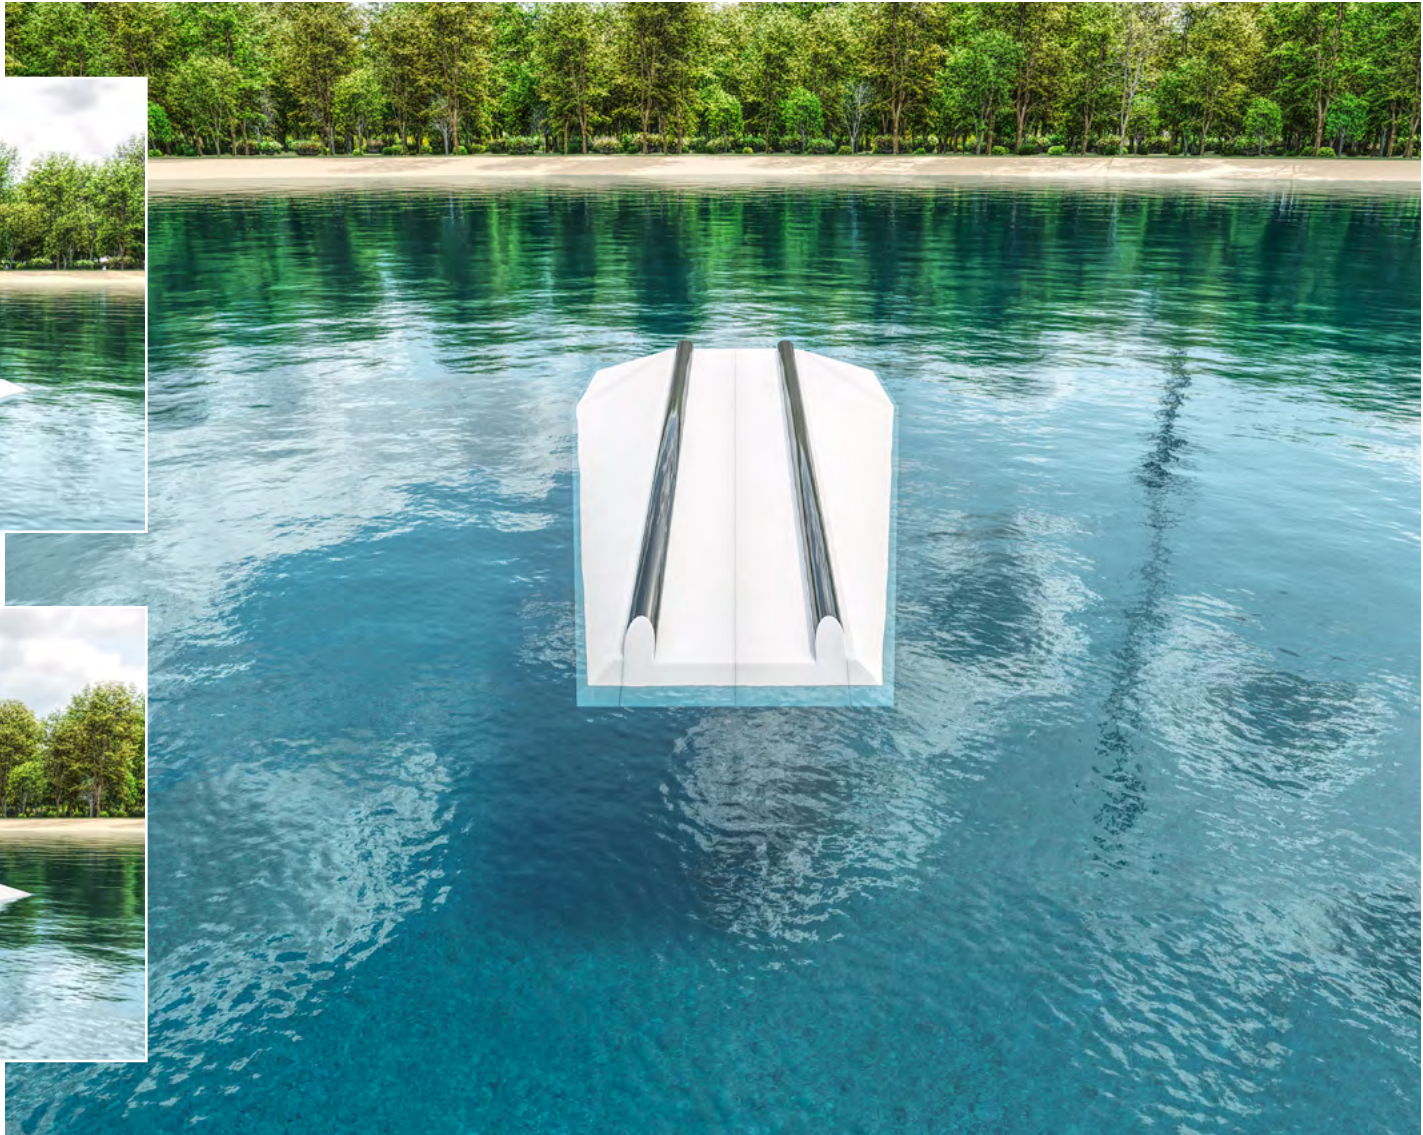

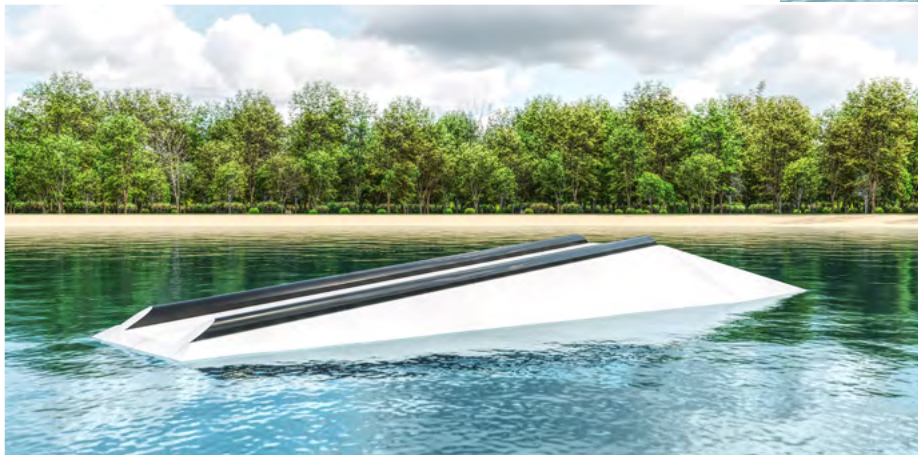

Item no. 12-429-V1

 LxWxH: 1,600x400x165 cm

 4,500 kg

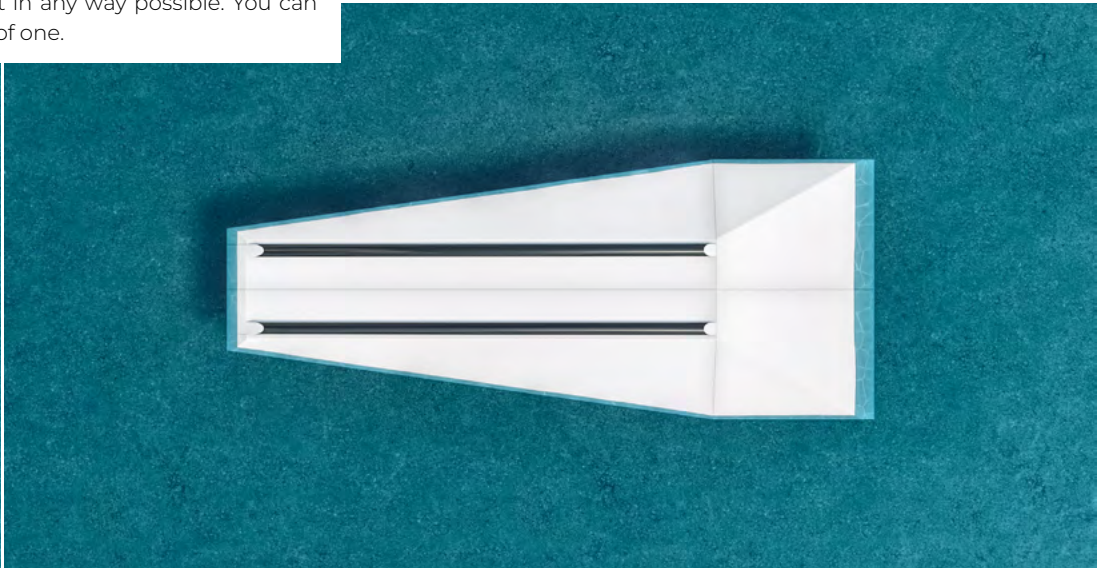

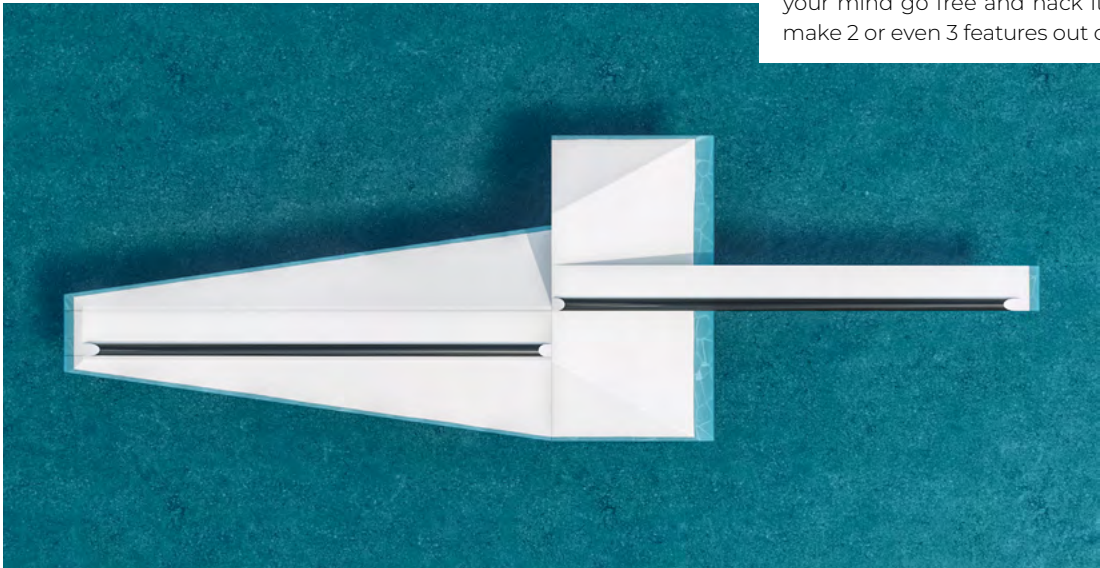

Complete setup: **EUR 44,500 net**

The feature is made up of 6 parts. This way you can really let your mind go free and hack it in any way possible. You can make 2 or even 3 features out of one.
