Massi Piffaretti

Super hyped to be presenting my first signature obstacle! With inspiration from the snowboard and wakeboard scene I wanted to create a fun, smooth rail that suites all levels of riders and leaves room for creativity!

Built around a center rainbow rail, combed with a technical stair aspect and smooth transition, my signature feature is allows every level of rider to have fun and push themselves.

With interchangeable pieces, this rail allows for multiple combinations to continually give the feature a fresh feel in any park!
